HAMILTON COLLEGE.

ADMISSION.

It is required that the candidates for admission to the Freshman Class, should not be less than fourteen years of age, with a corresponding increase for an advanced standing ; that they furnish evidence of a good moral character, and, if from another College, a regular dismissal ; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

PREPARATORY STUDIES.

1. English, Latin and Greek Grammar, including Prosody and correct accentuation in reading.
2. Sallust, or Cæsar's Commentaries.
3. Virgil's *Æneid*.
4. Cicero's Select Orations.
5. Prose of the Greek Reader.
6. Geography, Arithmetic, and Algebra to Quadratic Equations.

The ENTRANCE EXAMINATION is held on the Monday preceding Commencement, and on the last day of the ensuing vacation.

COURSE OF INSTRUCTION.

The whole course of instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning, and vigorous application ; and at the same time, to furnish it with the great leading facts and principles in Literature, Science, and the Arts.

RHETORICAL EXERCISES.

Weekly exercises in Composition, Translation, and Forensic Disputation, take place in the several Classes. Besides these, on Wednesday and Saturday of each week, all the students are required to attend public exhibitions in the Chapel, of Declamation, Select Translations from the Classics, and original Essays and Orations, under the direction of the Professor who has charge of the Rhetorical Department.

INSTRUCTION IN LAW.

It was provided by the Corporation at their late meeting, that the Professor of the Maynard Department shall take charge of a class of graduates and others who may desire to be prepared for admission to the Bar. The degree of Bachelor of Laws will be conferred upon all graduates who shall, after pursuing legal studies for one year, pass a satisfactory examination ; and upon others not under-graduates, who shall, under like conditions, pursue the study of law for four collegiate terms. It is intended to combine in the instruction of this department, lectures and recitations, and to give the student a precise and accurate knowledge of legal principles.

HAMILTON COLLEGE.

LIBRARIES AND CABINETS.

The College and Society Libraries, amounting to nearly 10,000 volumes, are at all times accessible to Students. Geological and Mineralogical Cabinets are also connected with the College, embracing the following collections :

1. 3000 Specimens of Ores and Simple Minerals.
2. 2500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
3. 1000 Specimens to illustrate the Geology of the United States.
4. 600 Specimens of Fossils mostly from the Silurian Formations of Europe.
5. 500 Specimens from the Coal Formations of the United States.
6. 250 Specimens from the New Red Sandstone Formation.
7. 600 Specimens of Crystallized Minerals from New York localities.
8. 600 Specimens of Land, Fresh-water and Marine Shells.

PRIZES.

Prizes in the form of valuable books are annually awarded to the two Students in each Class, who exhibit the highest degree of excellence in public Declamation ; also to the two in each Class who exhibit the highest degree of excellence in English Composition.

RELIGIOUS INSTRUCTION.

Morning and evening Prayers, with reading of the Scriptures, are attended in the College Chapel. Public services are attended in the Chapel, on the Sabbath, when all the Students are required to be present, except such as have permission to attend at other places of worship.

EXAMINATIONS.

1. Of all the Classes at the close of the First Term.
2. Of all the Classes at the close of the Second Term.
3. Of the Senior Class four weeks previous to Commencement.
4. Of the three other Classes the week previous to Commencement.

HAMILTON COLLEGE.

PUBLIC EXHIBITIONS.

1. Junior Exhibition, at the close of the Second Term.
2. Prize Declamation, on the Monday evening preceding Commencement.
3. Commencement, on the fourth Wednesday in July.

TERMS.

1. From the third Wednesday in September, thirteen weeks.
2. From the first Wednesday in January, thirteen weeks.
3. From the fourth Wednesday in April, to Commencement.

EXPENSES.

Board, from \$1 to \$2 per week,.....	\$39 00 to \$78 00
Room Rent, \$3 per term,.....	9 00 " 9 00
For sweeping and other contingencies,.....	4 00 " 4 50
Fuel and Lights,.....	5 00 " 10 00
Tuition,.....	30 00 " 30 00
Amount,.....	\$87 00 " \$131 00

In addition to the above, any damages voluntarily committed in the community of Students, are charged to the individuals committing them, when known; to the whole body, when not known, under the name of Extra Contingencies.

The above estimate of expenses is, of course, considerably diminished in the case of those Students who take advantage of the resolution of the Board of Trustees, which provides for a remission of their bills for tuition.

A Student admitted to an advanced standing, unless from another College, is charged, to the Sophomore Class, \$7; to the Junior, \$10; to the Senior, \$12.

Students whose circumstances make it necessary for them to take schools during the winter season, are permitted to be absent from their Classes for that purpose.

HAMILTON COLLEGE.

PAYMENT OF BILLS.

It is provided by a resolution of the Board of Trustees :

1. That no Student shall be permitted to enter on a second, or any succeeding Term, until he shall have paid, or secured to the satisfaction of the Treasurer, the fees of the preceding Term.

2. That no Student can have an honorable dismissal from this College, or certificate of his previous attendance in it, until all his bills are paid, or satisfactorily secured.

3. That any Student, whose circumstances render it necessary, and who shall present satisfactory testimonials of that fact, provided he proves himself a worthy member of the College, and his under-graduate course is completed in this Institution, can have his bills for tuition remitted.

SECOND DEGREES.

Graduates of three years' standing, are entitled to the degree of Master of Arts, on application to the President. The fee for the Diploma is \$5.00, payable in advance.

ABSENCE FROM COLLEGE.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for Students to visit their friends during the Term, except for urgent and unforeseen reasons. The occasional loss of a day, can not fail to have an unfavorable bearing on the intellectual habits and standing of the Student. It is hoped that parents and guardians will concur with the Faculty, in their opinion of the inexpediency of granting leave of absence in ordinary cases.

HAMILTON COLLEGE.

ADMISSION.

It is required that the candidates for admission to the Freshman Class, should not be less than fourteen years of age, with a corresponding increase for an advanced standing ; that they furnish evidence of good moral character ; and, if from another College, a regular dismissal ; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

PREPARATORY STUDIES.

1. English, Latin and Greek Grammer, including Prosody and correct accentuation in reading.
2. Sallust, or Cæsar's Commentaries.
3. Virgil's *Æneid*.
4. Cicero's Select Orations.
5. Prose of the Greek Reader.
6. First Book of Xenophon's *Anabasis*.
7. Geography and Arithmetic.
8. Algebra to Quadratic Equations.

The ENTRANCE EXAMINATIONS are held on the Monday preceeding Commencement, and on the last day of the ensuing vacation.

COURSE OF INSTRUCTION.

The whole course of instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning, and vigorous application ; and at the same time, furnish it with the great leading facts and principles in Literature, Science, and the Arts.

The following books are recommended for reference : Anthon's or Bullion's Greek Grammar, Pickering's or Liddell and Scott's Greek Lexicon, Andrews and Stoddard's or Bullion's Latin Grammar, Leverett's Latin Lexicon, Ramshorn's Latin Synonyms, Smith's Dictionary of Greek and Roman Antiquities, Eschenberg's Manual of Classical Literature, Anthon's Classical Dictionary, Butler's Atlas Classica, Anthon's Greek Prosody, Surenné's French Dictionary, Kent's Commentaries, Story's Commentaries on Constitutional Law, Vattel's Law of Nations, Day's and Campbell's Rhetoric, Chamber's Cyclopedia of English Literature, Silliman's, Draper's and Fowne's Chemistry, Dana's Mineralogy, Wood's Botany, Wyatt's Conchology, Hitchcock's and Loomis' Geology.

HAMILTON COLLEGE.

LECTURES.

Lectures are delivered on those subjects, in the College Course, which are not more advantageously taught by the use of approved text books, viz :

- To the Senior Class, on Chemistry, in the - - - - - First Term.
International Law, - - - First and Second Term.
Geology, - - - - - Second and Third Term.
Anatomy and Physiology, - Second and Third Term.
Astronomy, - - - - - Second and Third Term.
Evidences of Christianity, - First and Second Term.
- To the Junior Class, on Classical Literature, - - - - - First Term.
Natural Philosophy, - - - - - Second Term.

Mineralogy, - - - - - Third Term.
Greek Drama, - - - - - Third Term.

RHETORICAL EXERCISES.

Weekly exercises in Composition, Translation, and Forensic Disputation, take place in the several Classes. Besides these, on Wednesday and Saturday of each week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, Select Translations from the Classics, and original Essays and Orations, under the direction of the Professor who has charge of the Rhetorical Department.

INSTRUCTION IN LAW.

It was provided by the Corporation at a late meeting, that the Professor of the Maynard Department shall take charge of a class of graduates and others who may desire to be prepared for admission to the Bar. The degree of Batchelor of Laws will be conferred upon all graduates who shall, after pursuing legal studies for one year, pass a satisfactory examination; and upon others not under-graduates, who shall, under like conditions, pursue the study of law for four collegiate terms. It is intended to combine in the instruction of this department, lectures and recitations, and to give the student a precise and accurate knowledge of legal principles.

ASTRONOMY.

As a means of rendering more full and complete, the course of instruction in this department, an Astronomical Observatory has recently been erected on the College grounds. Contracts have also been made, for the instruments with which it is to be furnished ; all of which, it is believed, will be completed and ready for use, in the course of the present year.

CHEMISTRY.

A new building is being erected, for the better accommodation of Students in this department. It is intended that superior facilities shall be furnished for the acquisition of a practical knowledge of the science of Chemistry. Much attention will be given to Analysis, and also to Chemistry as applied to the Arts and Agriculture.

LIBRARIES AND CABINETS.

The College and Society Libraries, amounting to 10,000 volumes, are at all times accessible to Students. Geological and Mineralogical Cabinets, and collections in Natural History, are also connected with the College, embracing the following, viz :—

1. 3,000 Specimens of Ores and Simple Minerals.
2. 2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
3. 1,000 Specimens to illustrate the Geology of the United States.
4. 600 Specimens of Fossils mostly from the Silurian Formations of Europe.
5. 500 Specimens from the Coal Formations of the United States.
6. 250 Specimens from the New Red Sandstone Formation.
7. 600 Specimens of Crystallized Minerals from New York localities.
8. 600 Specimens of Land, Fresh-water and Marine Shells.
9. 300 Specimens in Ornithology, from China.

RELIGIOUS INSTRUCTION.

Morning and evening Prayers, with reading of the Scriptures, are attended in the College Chapel. Public services are attended in the Chapel, on the Sabbath, when all the Students are required to be present, except such as have permission to attend at other places of worship.

EXAMINATIONS.

1. Of all the Classes at the close of the First Term.
2. Of all the Classes at the close of the Second Term.
3. Of the Senior Class four weeks previous to Commencement.
4. Of the three other Classes the week previous to Commencement.

HAMILTON COLLEGE.

PRIZES.

Prizes in the form of valuable books are annually awarded to the two Students in each Class, who exhibit the highest degree of excellence in public Declamation ; also to the two in each Class who exhibit the highest degree of excellence in English Composition.

At the close of the present Collegiate year, the following Prizes will be distributed in money, viz :

1. The interest of a Prize Fund of \$500, founded by HON. AARON CLARK, of New York, will be given, in two Prizes, to Students who excel in *Oratory*.

2. The interest of a Prize Fund, of \$500, founded by HON. GEORGE UNDERWOOD, of Auburn, will be given, in two Prizes, to members of the Senior Class, who excel in *Chemistry*.

3. Thirty Dollars will be given, in two Prizes, by ALFRED L. WELLS, Esq., of Clinton, to members of the Junior Class, for excellence in *Mathematics*.

4. Thirty Dollars will be given, in two Prizes, by Professor GEORGE R. PERKINS, LL. D., of Utica, to members of the Sophomore Class, for excellence in *Mathematics*.

5. Thirty Dollars will be given, in two Prizes, by HERMAN CAMP, Esq., of Dunkirk, to members of the Freshman Class, for excellence in *Algebra* and *Geometry*.

PUBLIC EXHIBITIONS.

1. Junior Exhibition, at the close of the Second Term.
2. Prize Declamation, on the Monday evening preceeding Commencement.
3. Commencement, on the fourth Wednesday in July.

TERMS.

1. From the third Wednesday in September, thirteen weeks.
2. From the first Wednesday in January, thirteen weeks.
3. From the fourth Wednesday in April, to Commencement.

EXPENSES.

Tuition, - - - - -	30 00 " 30 00
Amount, - - - - -	\$87 00 " \$131 00

HAMILTON COLLEGE.

In addition to the above, any damages voluntarily committed in the community of Students, are charged to the individuals committing them when known ; to the whole body, when not known, under the name of Extra Contingencies.

The above estimate of expenses is, of course, considerably diminished in the case of those Students who take advantage of the resolution of the Board of Trustees, which provides for a remission of their bills for tuition.

A Student admitted to an advanced standing, unless from another College, is charged, to the Sophomore Class, \$7 ; to the Junior, \$10 ; to the Senior, \$12.

Students whose circumstances make it necessary for them to take schools during the winter season, are permitted to be absent from their Classes for that purpose.

PAYMENT OF BILLS.

It is provided by a resolution of the Board of Trustees :

1. That no Student shall be permitted to enter on a second, or any succeeding Term, until he shall have paid, or secured to the satisfaction of the Treasurer, the fees of the preceeding Term.

2. That no Student can have an honorable dismissal from this College, or certificate of his previous attendance in it, until all his bills are paid, or satisfactorily secured.

3. That any Student, whose circumstances render it necessary, and who shall present satisfactory testimonials of that fact, provided he proves himself a worthy member of the College, and his under-graduate course is completed in this Institution, can have his bills for tuition remitted.

SECOND DEGREES.

Graduates of three years' standing, are entitled to the degrees of Master of Arts, on application to the President. The fee for the Diploma is \$5.00, payable in advance.

ABSENCE FROM COLLEGE.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for Students to visit their friends during the Term, except for urgent and unforeseen reasons. The occasional loss of a day, can not fail to have an unfavorable bearing on the intellectual habits and standing of the Student. It is hoped that parents and guardians will concur with the Faculty, in their opinion of the inexpediency of granting leave of absence in ordinary cases.

PREPARATORY DEPARTMENT.

At a Special Meeting of the Trustees, held April 11th, 1854, measures were adopted, authorizing the College Faculty, with the Executive Committee, to organize a Grammar School in connection with the College, with the special design of meeting the wants of those students who desire to pursue Classical and Mathematical studies; but who are not prepared for admission to any of the College classes. In carrying into execution this plan, a systematic course of study has been arranged, which will occupy a part of the time of those Students who belong to this department, for two or three years, according to their previous attainments, viz :

FIRST YEAR.	{ Arnold's First Latin Book. Andrews & Stoddard's Latin Grammar. Andrews' Viri Romæ.
SECOND YEAR.	{ Sallust. Cicero's Orations against Cataline. McClintock's First Greek Book. Crosby's Greek Grammar and Reader.
THIRD YEAR.	{ Cicero's Orations, finished. Virgil. Andrews' Latin Prose Composition. Xenophon's Anabasis. Arnold's Greek Prose Composition.

The SCHOOL YEAR will be divided into three terms, of thirteen weeks each, corresponding with the College terms.

Tuition in the Classical department—per term,	- - - - -	\$8 00
Tuition in English department, payable at, or before the middle of each term,	- - - - -	\$6 00

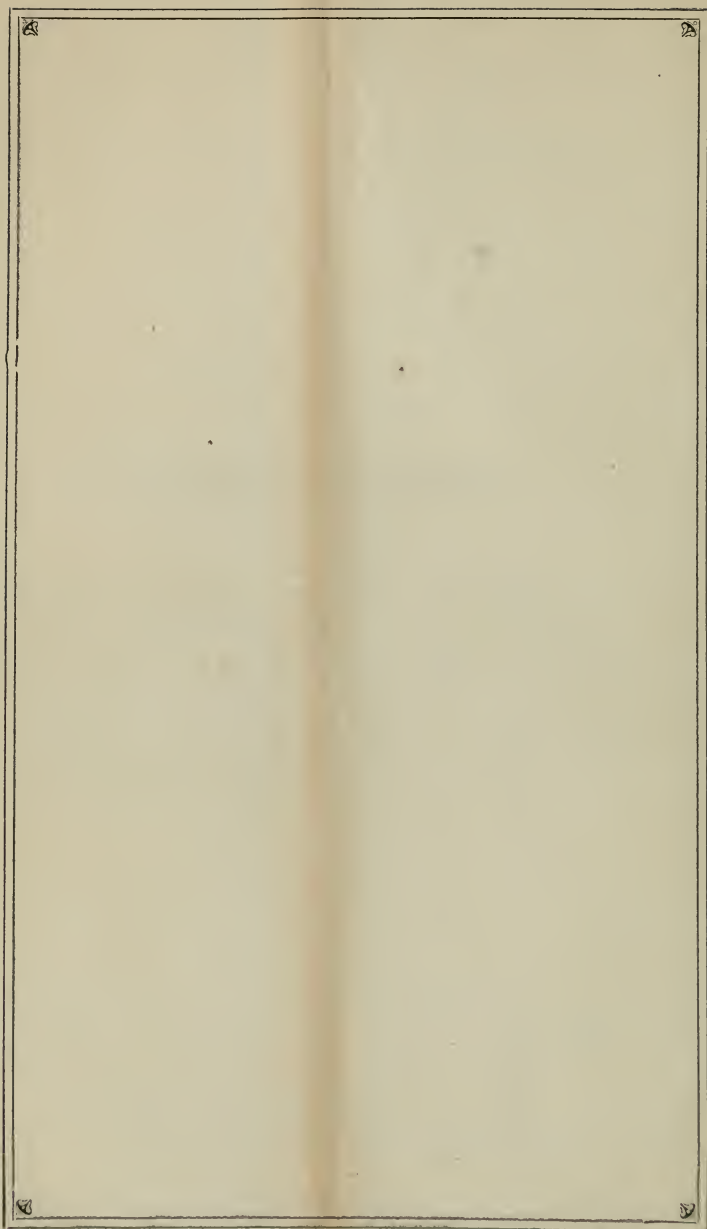

The Principal will receive into his family, a limited number of pupils under fourteen years of age. These pupils will receive special care in their studies, and enjoy the guardianship, comforts and influences of a Christian home. Terms for boarding during the School Year, including tuition, furnished rooms and lights, \$200 per annum, payable qarterly in advance. Washing will be made an extra charge.

SOCIETY OF ALUMNI.

This Society is composed of graduates from the College, and those upon whom it has conferred honorary degrees. Its objects are the encouragement of Science and Letters, the promotion of friendly feeling among its members, and the rendering of fit honor to the departed. Its anniversaries are held on the day before Commencement. The Orator for this year, is Rev. WILLIAM HAGUE, D. D., of Albany; the Poet, Rev. B. W. DWIGHT, of Brooklyn.

HAMILTON COLLEGE.

ADMISSION.

It is required that the candidates for admission to the Freshman Class, should not be less than fourteen years of age, with a corresponding increase for an advanced standing; that they furnish evidence of good moral character; and, if from another College, a regular dismission; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

PREPARATORY STUDIES.

1. English, Latin and Greek Grammar, including Prosody and correct accentuation in reading.
2. Sallust, or Cæsar's Commentaries.
3. Virgil's *Æneid*.
4. Cicero's Select Orations.
5. Prose of the Greek Reader.
6. First Book of Xenophon's *Anabasis*.
7. Geography and Arithmetic.
8. Algebra to Quadratic Equations.

The ENTRANCE EXAMINATIONS are held on the Monday preceding Commencement, and on the last day of the ensuing vacation.

COURSE OF INSTRUCTION.

The whole course of instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning, and vigorous application; and at the same time, furnish it with the great leading facts and principles in Literature, Science, and the Arts.

RHETORICAL EXERCISES.

Weekly exercises in Composition, Translation, and Forensic Disputation, take place in the several Classes. Besides these, on Wednesday and Saturday of each week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, Select Translations from the Classics, and original Essays and Orations, under the direction of the Professor who has charge of the Rhetorical Department.

INSTRUCTION IN LAW.

It has been provided by the Corporation, that the Professor of the Maynard Department shall take charge of a class of graduates and others who may desire to be prepared for admission to the Bar. The degree of Bachelor of Laws will be conferred upon all graduates who shall, after pursuing legal studies for one year, pass a satisfactory examination; and upon others not undergraduates, who shall, under like conditions, pursue the study of law for four collegiate terms. After studying Blackstone's and Kent's Commentaries, the class pursues the study of the Law of Contracts, of Real Estate, of Evidence, of Pleading, &c., in the most approved treatises. It is intended to combine in the course of instruction, lectures and recitations, and to give the student a precise and accurate knowledge of legal principles. By a recent act of the Legislature, Students who receive the degree of Bachelor of Laws, are entitled to admission to the Bar without further examination. There will hereafter be a public Exhibition in this Department, in connection with the Commencement Exercises.

ASTRONOMY.

As a means of rendering more full and complete, the course of instruction in this department, an Astronomical Observatory has recently been erected on the College grounds. Contracts have also been made, for the instruments with which it is to be furnished ; all of which, it is believed will be completed and ready for use, in the course of the present year.

CHEMISTRY.

A new building has been erected, for the better accommodation of Students in this department. It is intended that superior facilities shall be furnished for the acquisition of a practical knowledge of the science of Chemistry. Much attention will be given to Analysis, and also to Chemistry as applied to the Arts and Agriculture.

LIBRARIES AND CABINETS.

The College and Society Libraries, amounting to 10,000 volumes, are at all times accessible to Students. Geological and Mineralogical Cabinets, and collections in Natural History, are also connected with the College, embracing the following, viz :

1. 3,000 Specimens of Ores and Simple Minerals.
2. 2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
3. 1,000 Specimens to illustrate the Geology of the United States.
4. 600 Specimens of Fossils mostly from the Silurian Formations of Europe.
5. 500 Specimens from the Coal Formations of the United States.
6. 250 Specimens from the New Red Sandstone Formation.
7. 600 Specimens of Crystallized Minerals from New York localities.
8. 600 Specimens of Land, Fresh-water and Marine Shells.
9. 300 Specimens in Ornithology, from China.

RELIGIOUS INSTRUCTION.

Morning and evening Prayers, with reading of the Scriptures, are attended in the College Chapel. Public services are attended in the Chapel, on the Sabbath, when all the Students are required to be present, except such as have permission to attend at other places of worship.

EXAMINATIONS.

1. Of all the Classes at the close of the First Term.
2. Of all the Classes at the close of the Second Term.
3. Of the Senior Class four weeks previous to Commencement.
4. Of the three other Classes the week previous to Commencement.

HAMILTON COLLEGE.

PRIZES.

Prizes in the form of valuable books are annually awarded to the two Students in each Class, who exhibit the highest degree of excellence in public Declamation; also to the two in each Class who exhibit the highest degree of excellence in English Composition.

At the close of the present Collegiate year, the following Prizes will be distributed in money, viz:

1. The interest of a Prize Fund of \$500, founded by Hon. AARON CLARK, of New York, will be given, in one Prize, to Students who excel in *Oratory*.
2. The interest of a Prize Fund, of \$500, founded by Hon. GEORGE UNDERWOOD, of Auburn, will be given, in two Prizes, to members of the Senior Class, who excel in *Chemistry*.

PUBLIC EXHIBITIONS.

1. Junior Exhibition, at the close of the Second Term.
2. Prize Declamation, on the Monday evening preceding Commencement.
3. Commencement, on the Thursday after the third Wednesday in July.

TERMS.

1. From the second Wednesday in September, thirteen weeks.
2. From the first Wednesday in January, thirteen weeks.
3. From the fourth Wednesday in April, to Commencement.

EXPENSES.

Board, from \$2 to \$3 per week,.....	\$78 00	to	\$117 00
Room Rent, \$3 per term,	9 00	"	9 00
For sweeping and other contingencies,.....	4 00	"	4 00
Fuel and Lights,.....	5 00	"	10 00
Tuition,.....	30 00	"	30 00
Amount,.....	\$126 00		\$170 00

In addition to the above, any damages voluntarily committed in the community of Students, are charged to the individuals committing them when known; to the whole body, when not known, under the name of Extra Contingencies.

The above estimate of expenses is, of course, considerably diminished in the case of those Students who take advantage of the resolution of the Board of Trustees, which provides for a remission of their bills for tuition.

HAMILTON COLLEGE.

A Student admitted to an advanced standing, unless from another College, is charged, to the Sophomore Class, \$7; to the Junior, \$10; to the Senior, \$12.

Students whose circumstances make it necessary for them to take schools during the winter season, are permitted to be absent from their Classes for that purpose.

PAYMENT OF BILLS.

It is provided by a resolution of the Board of Trustees:

1. That no Student shall be permitted to enter on a second, or any succeeding Term, until he shall have paid, or secured to the satisfaction of the Treasurer, the fees of the preceding Term.

2. That no Student can have an honorable dismissal from this College, or certificate of his previous attendance in it, until all his bills are paid, or satisfactorily secured.

3. That any Student, whose circumstances render it necessary, and who shall present satisfactory testimonials of that fact, provided he proves himself a worthy member of the College, and his undergraduate course is completed in this Institution, can have his bills for tuition remitted.

SECOND DEGREES.

Graduates of three years' standing, are entitled to the degree of Master of Arts, on application to the President. The fee for the Diploma is \$5.00, payable in advance.

ABSENCE FROM COLLEGE.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for Students to visit their friends during the Term, except for urgent and unforeseen reasons. The occasional loss of a day, can not fail to have an unfavorable bearing on the intellectual habits and standing of the Student. It is hoped that parents and guardians will concur with the Faculty, in their opinion of the inexpediency of granting leave of absence in ordinary cases.

PREPARATORY DEPARTMENT.

By a special resolution of the Board of Trustees, a Grammar School has been organized in connection with the College, with the design of meeting the wants of those Students who desire to pursue Classical and Mathematical studies, but who are not prepared for admission to any of the College classes. In carrying into execution this plan, a systematic course of study has been arranged, which will occupy a part of the time of those Students who belong to this department, for two or three years, according to their previous attainments, viz :

FIRST YEAR.	{ Arnold's First Latin Book. Andrews & Stoddard's Latin Grammar. Andrews' Viri Romæ.
SECOND YEAR.	{ Sallust. Cicero's Orations against Cataline. McClintock's First Greek Book. Crosby's Greek Grammar and Reader.
THIRD YEAR.	{ Cicero's Orations, finished. Virgil. Andrews' Latin Prose Composition. Xenophon's Anabasis. Arnold's Greek Prose Composition.

The SCHOOL YEAR will be divided into three terms, of thirteen weeks each, corresponding with the College terms.

Tuition in the Classical department—per term,.....\$8 00

Tuition in English department, payable at, or before the middle of
each term,\$6 00

The Principal will receive into his family, a limited number of pupils under fourteen years of age. These pupils will receive special care in their studies, and enjoy the guardianship, comforts and influences of a Christian home. Terms for boarding during the School Year, including tuition, furnished rooms and lights, \$200 per annum, payable quarterly in advance. Washing will be made an extra charge.

HAMILTON COLLEGE.

ADMISSION.

It is required that the candidates for admission to the Freshman Class, should not be less than fourteen years of age, with a corresponding increase for an advanced standing; that they furnish evidence of good moral character; and, if from another College, a regular dismission; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

PREPARATORY STUDIES.

1. Geography and Arithmetic.
2. English, Latin and Greek Grammar, including Prosody and correct accentuation in reading.
3. Sallust, or Cæsar's Commentaries.
4. Virgil's *Æneid*.
5. Cicero's Select Orations
6. Prose of the Greek Reader.
7. First Book of Xenophon's *Anabasis*.
8. Algebra to Quadratic Equations.

The ENTRANCE EXAMINATIONS are held on the Monday preceding Commencement, and on the last day of the ensuing vacation.

COURSE OF INSTRUCTION.

The whole course of instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning, and vigorous application; and at the same time, furnish it with the great leading facts and principles in Literature, Science, and the Arts.

RHETORICAL EXERCISES.

Weekly exercises in Composition, Translation, and Forensic Disputation, take place in the several Classes. Besides these, on Wednesday and Saturday of each week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, Select Translations from the Classics, and original Essays and Orations, under the direction of the Professor who has charge of the Rhetorical Department.

INSTRUCTION IN LAW.

It has been provided by the Corporation, that the Professor of the Maynard Department shall take charge of a class of graduates and others who may desire to be prepared for admission to the Bar. The degree of Bachelor of Laws will be conferred upon all graduates who shall, after pursuing legal studies for one year, pass a satisfactory examination; and upon others not undergraduates, who shall, under like conditions, pursue the study of law for four collegiate terms. After studying Blackstone's and Kent's Commentaries, the class pursues the study of the Law of Contracts, of Real Estate, of Evidence, of Pleading, &c., in the most approved treatises. It is intended to combine in the course of instruction, lectures and recitations, and to give the student a precise and accurate knowledge of legal principles. By a recent act of the Legislature, Students who receive the degree of Bachelor of Laws, are entitled to admission to the Bar without further examination. There will hereafter be a public Exhibition in this Department, in connection with the Commencement Exercises.

HAMILTON COLLEGE.

ASTRONOMY.

As a means of rendering more full and complete, the course of instruction in this department, an Astronomical Observatory has recently been erected on the College grounds. Contracts have also been made, for the instruments with which it is to be furnished; all of which, it is believed, will be completed and ready for use in the course of the present year.

CHEMISTRY.

A new building has been erected, for the better accommodation of Students in this department. It is intended that superior facilities shall be furnished for the acquisition of a practical knowledge of the science of Chemistry. Much attention will be given to Analysis, and also to Chemistry as applied to the Arts and Agriculture.

LIBRARIES AND CABINETS.

The College and Society Libraries, amounting to 10,000 volumes, are at all times accessible to Students. Geological and Mineralogical Cabinets, and collections in Natural History, are also connected with the College, embracing the following, viz :

1. 3,000 Specimens of Ores and Simple Minerals.
2. 2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
3. 1,000 Specimens to illustrate the Geology of the United States.
4. 600 Specimens of Fossils mostly from the Silurian Formations of Europe.
5. 500 Specimens from the Coal Formations of the United States.
6. 250 Specimens from the New Red Sandstone Formation.
7. 600 Specimens of Crystallized Minerals from New York localities.
8. 600 Specimens of Land, Fresh-water and Marine Shells.
9. 300 Specimens in Ornithology, from China.

RELIGIOUS INSTRUCTION.

Morning and evening Prayers, with reading of the Scriptures, are attended in the College Chapel. Public services are attended in the Chapel, on the Sabbath, when all the Students are required to be present, except such as have permission to attend at other places of worship.

EXAMINATIONS.

1. Of all the Classes at the close of the First Term.
2. Of all the Classes at the close of the Second Term.
3. Of the Senior Class four weeks previous to Commencement.
4. Of the three other Classes the week previous to Commencement.

HAMILTON COLLEGE.

PRIZES.

Prizes in the form of valuable books are annually awarded to the two Students in each of the three lower Classes, who exhibit the highest degree of excellence in public Declamation; also to the two in each Class who exhibit the highest degree of excellence in English Composition.

At the close of the present Collegiate year, the following Prizes will be distributed in money, viz :

1. The interest of a Prize Fund of \$500, founded by Hon. AARON CLARK, of New York, will be given, in one Prize, to the Student who excels in *Oratory*.
2. The interest of a Prize Fund of \$500, founded by Hon. GEORGE UNDERWOOD, of Auburn, will be given, in two Prizes, to members of the Senior Class, who excel in *Chemistry*.
3. The interest of a Prize Fund of \$500, founded by HORACE D. KELLOGG, Esq., of Bridgewater, will be given in two Prizes, to members of the Junior Class who excel in *Classical Studies*.

PUBLIC EXHIBITIONS.

1. Junior Exhibition, at the close of the Second Term.
2. Clark Prize Exhibition, in the seventh week of the Third Term.
3. Prize Declamation, on the Monday evening preceding Commencement.
4. Commencement, on the Thursday after the third Wednesday in July.

TERMS.

1. From the second Wednesday in September, thirteen weeks.
2. From the first Wednesday in January, thirteen weeks.
3. From the fourth Wednesday in April, to Commencement.

EXPENSES.

Board, from \$2 to \$3 per week,.....	\$78 00	to	\$117 00
Room Rent, \$3 per term,.....	9 00	"	9 00
For sweeping and other contingencies,.....	4 00	"	4 00
Fuel and lights,	5 00	"	10 00
Tuition,	30 00	"	30 00
Amount,	\$126 00		\$170 00

In addition to the above, any damages voluntarily committed in the community of students, are charged to the individuals committing them when known; to the whole body, when not known, under the name of Extra Contingencies.

The above estimate of expenses is, of course, considerably diminished in the case of those Students who take advantage of the resolution of the Board of Trustees, which provides for a remission of their bills for tuition.

HAMILTON COLLEGE.

A Student admitted to an advanced standing, unless from another College, is charged, to the Sophomore Class, \$7 ; to the Junior, \$10 ; to the Senior, \$12.

Students whose circumstances make it necessary for them to take schools during the winter season, are permitted to be absent from their Classes for that purpose.

PAYMENT OF BILLS.

It is provided by a resolution of the Board of Trustees :

1. That no Student shall be permitted to enter on a second, or any succeeding Term, until he shall have paid, or secured to the satisfaction of the Treasurer, the fees of the preceding Term.

2. That no Student can have an honorable dismissal from this College, or certificate of his previous attendance in it, until all his bills are paid, or satisfactorily secured.

3. That any Student, whose circumstances render it necessary, and who shall present satisfactory testimonials of that fact, provided he proves himself a worthy member of the College, and his undergraduate course is completed in this Institution, can have his bills for tuition remitted.

SECOND DEGREES.

Graduates of three years' standing, are entitled to the degree of Master of Arts, on application to the President. The fee for the Diploma is \$5,00, payable in advance.

ABSENCE FROM COLLEGE.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for Students to visit their friends during the Term, except for urgent and unforeseen reasons. The occasional loss of a day, can not fail to have an unfavorable bearing on the intellectual habits and standing of the Student. It is hoped that parents and guardians will concur with the Faculty, in their opinion of the inexpediency of granting leave of absence in ordinary cases. During vacations, the College buildings are closed, and it is not thought desirable that Students from abroad should remain in Clinton.

FOR THE JUNIORS.

1. A Comparison of Æschylus with Shelley.
2. Sir John Falstaff.

FOR THE SOPHOMORES.

1. The Death of Demosthenes, and its Lessons.
2. A Critical Estimate of the Spectator.

FOR THE FRESHMEN.

1. The Early History of the Romans.
2. The Use and Abuse of Books.

REGULATIONS FOR PRIZE COMPOSITION.

1. Every Student, in actual attendance during the Second Term, has the privilege of writing upon either, or both, of the subjects assigned to the Class of which he is a member ; but no one can receive two prizes in a single year.

2. Each Essay must contain not more than two sheets of letter paper, and must be so written that the MS. will show broad margins, and be suitable for binding ; it must be signed with a fictitious name, and this fictitious name superscribed on a sealed note containing the writer's real name.

3. The Essays must be left with the President before 12 o'clock on the first Friday in the Third Term.

4. The Faculty will appoint a Committee to select the best Essay on each of the subjects assigned to the several Classes.

5. The successful Essayists, (two from each Class,) will be announced at the close of the Third Term ; and books of value will be given as prizes, on Commencement day.

6. A copy of each successful Essay will be preserved in the College Library.

7. The unsuccessful Essays may be had, by calling upon the Librarian at the close of the Third Term.

SUBJECTS FOR CLARK PRIZE ORATIONS,
1857.

1. The Beautiful ; in its Relations to Christianity.
2. The Position of Patrick Henry in American History.
3. The Power of Reserve.
4. Assimilation of Character to Objects of Thought.
5. Christian Principle as a Power in Politics.

REGULATIONS FOR THE CLARK PRIZE.

1. Every member of the Senior Class, in actual attendance during the Second Term, may write upon either one of the subjects assigned.
2. Each Oration must be no longer than should be delivered in twelve minutes : it must be signed with a fictitious name, and this name superscribed on a sealed note containing the author's real name.
3. The Orations must be left with the President, before twelve o'clock on the last Tuesday of the Second Term.
4. The best six Orations will be selected by the Faculty, and the names of the successful competitors announced on the second Thursday in May.
5. The Orations will be delivered, under the direction of the Rhetorical Professor, on the evening of the second Wednesday in June.
6. The Prize will be awarded on Commencement day.
7. A copy of each of the Orations will be kept in the College Library.

REGULATIONS FOR THE
KELLOGG PRIZE EXAMINATION,
FRIDAY, MARCH 13, 1857.

1. Members of the Junior Class who intend to compete at the Kellogg Prize Examination, must make known this intention to their Classical Instructor, on or before the last Saturday in February.

2. The examination will be held in the Philosophical Chamber, commencing at half past eight, and closing at half past twelve.

3. Competitors are required to bring with them pens and ink. Paper will be furnished at the examination room.

4. Competitors are not allowed to bring with them any written or printed matter, or to hold any communication with each other. A violation of this rule will vitiate the work of the one so doing.

5. Only one face of each half sheet is to be written upon, the other being left blank. There should also be two inches of margin on the left edge of each sheet.

6. The pages should be numbered at the top, with the Student's name repeated beneath each number.

7. The several portions of the work should likewise be numbered according to the numbers of the printed questions.

8. At a quarter past twelve notice will be given, that competitors may review, correct, and finish their work. At half past twelve the papers are to be given up.

9. In estimating the merit of the Student's work, two points will be considered :—*First*, fullness of learning ; exactness in rendering ; extent and accuracy of information on the subjects proposed ; *Secondly*, neatness, elegance, and logical arrangement in the exhibition and utterance of knowledge.

PREPARATORY DEPARTMENT.

By a special resolution of the Board of Trustees, a Grammar School has been organized in connection with the College, with the design of meeting the wants of those Students who desire to pursue Classical and Mathematical studies, but who are not prepared for admission to any of the College classes. In carrying into execution this plan, a systematic course of study has been arranged which will occupy a part of the time of those Students who belong to this department, for two or three years, according to their previous attainments, viz :

FIRST YEAR.	{ Arnold's First Latin Book. Andrews and Stoddard's Latin Grammar. Andrews' Viri Romæ.
SECOND YEAR.	{ Sallust. Cicero's Orations against Cataline. McClintock's First Greek Book. Crosby's Greek Grammar and Reader.
THIRD YEAR.	{ Cicero's Orations, finished. Virgil. Andrews' Latin Prose Composition. Xenophon's Anabasis. Arnold's Greek Prose Composition.

The SCHOOL YEAR will be divided into three terms, of thirteen weeks each, corresponding with the College terms.

Tuition in the Classical Department—per term,.....	\$8 00
Tuition in English Department, payable at, or before the middle of each term,	\$6 00

The Principal will receive into his family, a limited number of pupils under fourteen years of age. These pupils will receive special care in their studies, and enjoy the guardianship, comforts and influences of a Christian home. Terms for boarding during the School Year, including tuition, furnished rooms and lights, \$200 per annum, payable quarterly in advance. Washing will be made an extra charge.

SOCIETY OF ALUMNI.

This Society is composed of graduates from the College, and those upon whom it has conferred honorary or *ad eundem* degrees. Its objects are the encouragement of Science and Letters, the promotion of friendly feeling among its members, and the rendering of fit honor to the departed. Its anniversaries are held on the Tuesday before Commencement.

HAMILTON COLLEGE.

ADMISSION.

It is required that the candidates for admission to the Freshman Class, should not be less than fourteen years of age, with a corresponding increase for an advanced standing; that they furnish evidence of good moral character; and, if from another College, a regular dismission; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

PREPARATORY STUDIES.

1. Geography and Arithmetic.
2. English, Latin and Greek Grammar, including Prosody and correct accentuation in reading.
3. Sallust, or Cæsar's Commentaries.
4. Virgil's *Æneid*.

6. Prose of the Greek Reader.
7. First Book of Xenophon's *Anabasis*.
8. Algebra to Quadratic Equations.

The ENTRANCE EXAMINATIONS are held on the Monday preceding Commencement, and on the last day of the ensuing vacation.

COURSE OF INSTRUCTION.

The whole course of instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning, and vigorous application; and at the same time, furnish it with the great leading facts and principles in Literature, Science, and the Arts.

RHETORICAL EXERCISES.

Weekly exercises in Composition, and Forensic Disputation, take place in the several Classes. Besides these, on Wednesday and Saturday of each week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, and original Essays and Orations, under the direction of the Professor who has charge of the Rhetorical Department. On the evening of the seventh Wednesday in each Term, a public Prize Debate is held in the College Chapel, by members selected from the Phoenix and Union Societies.

ASTRONOMY.

As a means of rendering more full and complete, the course of instruction in this department, an Astronomical Observatory has recently been erected on the College grounds. Contracts have also been made, for the instruments with which it is to be furnished ; all of which, it is believed, will be completed and ready for use in the course of the present year.

CHEMISTRY.

A new building has been erected, for the better accommodation of Students in this department. It is intended that superior facilities shall be furnished for the acquisition of a practical knowledge of the science of Chemistry. Much attention will be given to Analysis, and also to Chemistry as applied to the Arts and Agriculture.

HAMILTON COLLEGE.

LIBRARIES AND CABINETS.

The College and Society Libraries, amounting to 10,000 volumes, are at all times accessible to Students. Geological and Mineralogical Cabinets, and collections in Natural History, are also connected with the College, embracing the following, viz :

1. 3,000 Specimens of Ores and Simple Minerals.
2. 2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
3. 1,000 Specimens to illustrate the Geology of the United States.

8. 600 Specimens of Land, Fresh-water and Marine Shells.
9. 300 Specimens in Ornithology, from China.

RELIGIOUS INSTRUCTION.

Morning and evening Prayers, with reading of the Scriptures, are attended in the College Chapel. Public services are attended in the Chapel, on the Sabbath, when all the Students are required to be present, except such as have permission to attend at other places of worship. On Sabbath evening there is a Religious Service under the direction of the College Pastor, at which all the Students are invited to attend.

EXAMINATIONS.

1. Of all the Classes at the close of the First Term.
2. Of all the Classes at the close of the Second Term.
3. Of the Senior Class four weeks previous to Commencement.
4. Of the three other Classes the week previous to Commencement.

PRIZES.

Prizes in the form of valuable books are annually awarded to the two Students in each of the three lower Classes, who exhibit the highest degree of excellence in public Declamation ; also to the two in each Class who exhibit the highest degree of excellence in English Composition.

At the close of the present Collegiate year, the following Prizes will be distributed in money, viz .

1. The interest of a Prize Fund of \$500, founded by Hon. AARON CLARK, of New York, will be given, in one Prize, to the Student who excels in *Oratory*.
2. The interest of a Prize Fund of \$500, founded by Hon. GEORGE UNDERWOOD, of Auburn, will be given, in two Prizes, to members of the Senior Class, who excel in *Chemistry*.

HAMILTON COLLEGE.

3. Clark Prize Exhibition, on the second Wednesday evening in June.
4. Prize Declamation, on the Monday evening preceding Commencement.
5. Commencement, on the Thursday after the third Wednesday in July.

TERMS.

1. From the second Wednesday in September, thirteen weeks.
2. From the first Wednesday in January, thirteen weeks.
3. From the fourth Wednesday in April, to Commencement.

EXPENSES.

Board, from \$2 to \$3 per week,.....	\$78 00 to \$117 00
Room Rent, \$3 per term,.....	9 00 " 9 00
For sweeping and other contingencies,.....	4 00 " 4 00
Fuel and lights,.....	5 00 " 10 00
Tuition,.....	30 00 " 30 00
Amount,.....	\$126 00 \$170 00

In addition to the above, any damages voluntarily committed in the community of students, are charged to the individuals committing them when known; to the whole body, when not known, under the name of Extra Contingencies.

The above estimate of expenses is, of course, considerably diminished in the case of those Students who take advantage of the resolution of the Board of Trustees, which provides for a remission of their bills for tuition.

A Student admitted to an advanced standing, unless from another College, is charged, to the Sophomore Class, \$7 ; to the Junior, \$10; to the Senior, \$12.

Students whose circumstances make it necessary for them to take schools during the winter season, are permitted to be absent from their Classes for that purpose.

PAYMENT OF BILLS.

It is provided by a resolution of the Board of Trustees :

1. That no Student shall be permitted to enter on a second, or any succeeding Term, until he shall have paid, or secured to the satisfaction of the Treasurer, the fees of the preceding Term.

HAMILTON COLLEGE.

2. That no Student can have an honorable dismissal from this College, or, certificate of his previous attendance in it, until all his bills are paid, or satisfactorily secured.

3. That any Student, whose circumstances render it necessary, and who shall present satisfactory testimonials of that fact, provided he proves himself a worthy member of the College, and his undergraduate course is completed in this Institution, can have his bills for tuition remitted.

SECOND DEGREES.

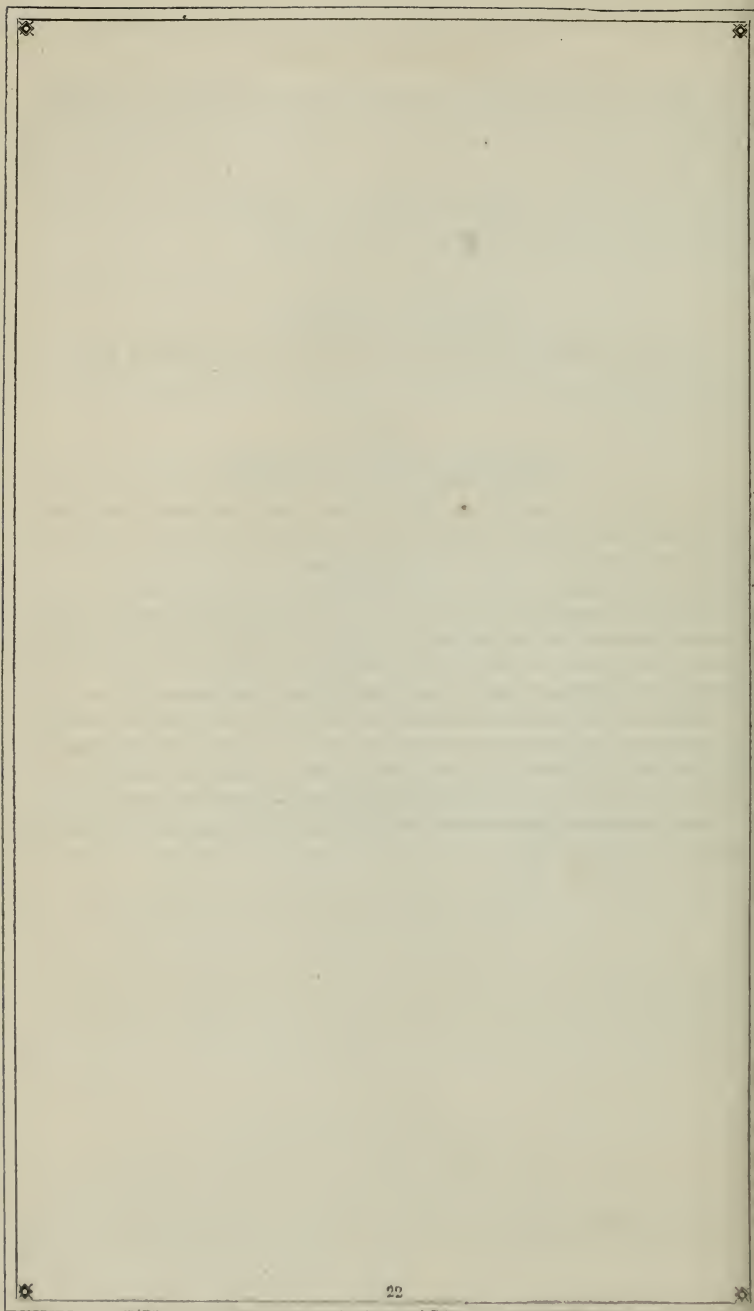

Graduates of three years' standing, are entitled to the degree of Master of Arts, on application to the President. The fee for the Diploma is \$5,00, payable in advance.

ABSENCE FROM COLLEGE.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for Students to visit their friends during the Term, except for urgent and unforeseen reasons. The occasional loss of a day, can not fail to have an unfavorable bearing on the intellectual habits and standing of the Student. It is hoped that parents and guardians will concur with the Faculty, in their opinion of the inexpediency of granting leave of absence in ordinary cases. During vacations, the College buildings are closed, and it is not thought desirable that Students from abroad should remain in Clinton.

Members of the Senior Class cannot be graduated, unless they have been in attendance during two terms of the Senior year. No Student is permitted to take part in the exercises of Commencement day, who has not spent the third term of his Senior year in College, and made his preparation on the ground.

Every omitted recitation must be recited within two weeks after the Student's return to College duties.

LAW DEPARTMENT.

The course of instruction in Law includes the thorough and careful study of the most approved text books. Among these are Blackstone's and Kent's Commentaries, Parsons on Contracts, Cruise's Digest of the Law of Real Estate, (Greenleaf's edition,) Greenleaf on Evidence, Vol. 1st, and the Code of Procedure.

The great object aimed at is to store the mind of the student with the fundamental principles of the Law. This is to be accomplished in such a way that he can give at any time a full and accurate expression of legal rules. The text books are to be so mastered that any question may be answered readily and with exactness. Reviews of previous exercises are often repeated, until the student becomes as familiar with the rudiments of law as with the rudiments of a language. At each exercise, every student is examined on the subject studied, and expected to give the results of the text in his own words.

The Professor connects oral and familiar lectures with each recitation, putting cases to the class involving the principles of the text, and requiring a solution, and endeavoring in every manner which may suggest itself, to quicken and interest the student by exciting his own mind to continual action. Instead of the fitful and intermittent studies of the law office, pursued often in confusion and amidst other circumstances tending to distract the mind, the student studies law as he does any other science, with a systematic purpose and plan. Experience has proved by its unfailing tests, that on such a basis, underlying the superstructure of a careful practice, sound and accurate lawyers will be formed.

Particular attention is given to the study of the law of real estate. At each exercise one or more of the students is required to examine points of law, and read before the class an essay, setting forth some legal principle and the authorities sustaining it, and also, from time to time to prepare various conveyances, as well as the legal papers used in the progress of a suit.

Moot Courts are held once a week, in which the case is furnished by the Professor, and heard before him as a Judge.

HAMILTON COLLEGE.

Any person of good moral character, who complies with the rules of the department, may join the class. The prescribed course of study for College graduates is one year; for those not graduated, one year and one-third. After having passed the regular course of study, and the examination prescribed by the rules of the College, the student is entitled to the degree of Bachelor of Laws. No other examination is necessary for admission to the Bar. By the Laws of 1855, chap. 310, every graduate of the Law School is entitled to a certificate to practice as an Attorney and Counsellor of the Supreme Court. The terms of tuition are \$20 per term, or \$60 per year, with a graduation fee of \$5.

Students who do not wish to graduate can remain any number of terms which they may choose, or study any one of the subjects embraced in the course. The order of studies in the principal subjects is: the Law of Contracts in the fall term; of Real Estate in the winter term; and Real Estate completed, Evidence, &c., in the spring term.

The Text Books are furnished by the Institution, and loaned to the student without charge, with the exception of Blackstone and Kent.

REGULATIONS FOR PRIZE COMPOSITION.

1. Every Student, in actual attendance during the Second Term, has the privilege of writing upon either, or both, of the subjects assigned to the Class of which he is a member ; but no one can receive two prizes in a single year.
2. Each Essay must contain not more than two sheets of letter paper, and must be so written that the MS. will show broad margins, and be suitable for binding : it must be signed with a fictitious name, and this fictitious name superscribed on a sealed note containing the writer's real name.
3. The Essays must be left with the President before 12 o'clock on the first Friday in the Third Term.
4. The Faculty will appoint a Committee of Literary Gentlemen to select the best Essay on each of the subjects assigned to the several Classes.
5. The two successful Essayists, from each Class will be announced at the close of the Third Term ; and books of value will be given as prizes, on Commencement day.
6. A copy of each successful Essay will be preserved in the College Library.
7. The unsuccessful Essays may be had, by calling upon the Librarian at the close of the Third Term.

SUBJECTS FOR THE CLARK PRIZE ORATIONS.

1858.

1. American Indebtedness to Alexander Hamilton.
2. Unconscious Influence.
3. The Progress of Popular Sovereignty.
4. The Legacy of Athens to English Literature.
5. Sympathy, as a Means of Reform.

REGULATIONS FOR THE CLARK PRIZE.

1. Every member of the Senior Class, in actual attendance during the Second Term, may write upon either one of the subjects assigned.
2. Each Oration must be no longer than should be delivered in twelve minutes: it must be signed with a fictitious name, and this name superscribed on a sealed note containing the author's real name.
3. The Orations must be left with the President, before twelve o'clock on the last Tuesday of the Second Term.
4. The best six Orations will be selected by the Faculty, and the names of the successful competitors announced on the second Tuesday in May.

REGULATIONS FOR THE THIRD
KELLOGG PRIZE EXAMINATION,
SATURDAY, MAY 1st, 1858.

1. Members of the Junior Class intending to compete at the Kellogg Prize Examination, must make known this intention to their Classical Instructor, on or before the last Saturday in February.

2. The examination will be held in the Ante-room of the Cabinet, commencing at a quarter past eight, and closing at half past twelve.

3. Competitors are required to bring with them pens and ink. Paper will be furnished at the examination room.

4. Competitors are not allowed to bring with them any written or printed matter, or to hold any communication with each other. A violation of this rule will vitiate the work of the one so doing.

5. Only one face of each half sheet is to be written upon, the other being left blank. There should also be an inch of margin on the left edge of each sheet.

6. The pages should be numbered at the top, with the Student's name repeated beneath each number.

7. The several portions of the work should likewise be numbered according to the numbers of the printed questions.

8. At a quarter past twelve notice will be given, that competitors may review, correct, and finish their work. At half past twelve the papers are to be given up.

9. In estimating the merit of the Student's work, two points will be especially considered:—

(1.) Exactness in rendering; fullness and accuracy of information on the subjects proposed.

(2.) Neatness, elegance, and logical arrangement in the exhibition and utterance of knowledge.

10. The kinds of work to be done will be as follows, viz:—

(1.) Translation from and into Greek, Latin and French.

(2.) Analysis of words, including derivation, synonyms, inflexion and dialectic changes.

(3.) Analysis of sentences, with rules of construction, illustrative quotations, and the answering of questions in History, Geography and Mythology.

(4.) Analysis of metres, including quantity, rhythms and nomenclature.

(5.) Rules and practice of Greek accentuation.

(6.) Criticism on the style, spirit and subject-matter of the authors quoted from.

PREPARATORY DEPARTMENT.

By a special resolution of the Board of Trustees, a Grammar School has been organized in connection with the College, with the design of meeting the wants of those Students who desire to pursue Classical and Mathematical studies, but who are not prepared for admission to any of the College classes. In carrying into execution this plan, a systematic course of study has been arranged which will occupy a part of the time of those Students who belong to this department, for two or three years, according to their previous attainments, viz :

FIRST YEAR.	{ Arnold's First Latin Book. Andrews' and Stoddard's Latin Grammar. Andrews' Viri Romæ.
SECOND YEAR.	{ Sallust. Cicero's Orations against Cataline. McClintock's First Greek Book. Crosby's Greek Grammar and Reader.
THIRD YEAR.	{ Cicero's Orations, finished. Virgil. Andrews' Latin Prose Composition. Xenophon's Anabasis. Arnold's Greek Prose Composition.

The SCHOOL YEAR will be divided into three terms, of thirteen weeks each, corresponding with the College terms.

Tuition in the Classical Department—per term,.....\$8 00

Tuition in English Department, payable at, or before the middle of
each term,.....\$6 00

The Principal will receive into his family, a limited number of pupils under fourteen years of age. These pupils will receive special care in their studies, and enjoy the guardianship, comforts and influences of a Christian home. Terms for boarding during the School Year, including tuition, furnished rooms and lights, \$200 per annum, payable quarterly in advance. Washing will be made an extra charge.

SOCIETY OF ALUMNI.

This Society is composed of graduates from the College, and those upon whom it has conferred honorary or *ad eundem* degrees. Among its objects is the encouragement of Science and Letters. More especially in their connection with Hamilton College. It seeks also the promotion of friendly feeling and sympathy among its living members, and the rendering of fit honor to the departed. Its anniversary and social meeting are held on the Wednesday before Commencement.

HAMILTON COLLEGE.

ADMISSION.

It is required that the candidates for admission to the Freshman Class, should not be less than fourteen years of age, with a corresponding increase for an advanced standing ; that they furnish evidence of good moral character ; and, if from another College, a regular dismissal ; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

PREPARATORY STUDIES.

1. Geography and Arithmetic.
2. English, Latin and Greek Grammar, including Prosody and correct accentuation in reading.
3. Sallust, or Cæsar's Commentaries.
4. Virgil's *Æneid*.
5. Cicero's Select Orations.
6. Prose of the Greek Reader.
7. First Book of Xenophon's *Anabasis*.
8. Algebra to Quadratic Equations.

The ENTRANCE EXAMINATIONS are held on the Monday preceding Commencement, and on the last day of the ensuing vacation.

COURSE OF INSTRUCTION.

The whole course of instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning, and vigorous application ; and at the same time, furnish it with the great leading facts and principles in Literature, Science, and the Arts.

The following books are recommended for reference : Anthon's or Crosby's Greek Grammar, Pickering's or Liddell and Scott's Greek Lexicon, Andrews' and Stoddard's or Bullions' Latin Grammar, Leverett's or Andrews' Latin Lexicon, Ramshorn's Latin Synonyms, Smith's Dictionary of Greek and Roman Antiquities, Eschenberg's Manual of Classical Literature, Anthon's Classical Dictionary, Long's Atlas of Classical Geography, Anthon's Greek Prosody, Surenne's French Dictionary, Kent's Commentaries, Story's Commentaries on Constitutional Law, Vattel's Law of Nations, Day's and Campbell's Rhetoric, Chambers' Cyclopaedia of English Literature, Silliman's, Draper's and Fowne's Chemistry, Dana's Mineralogy, Wood's Botany, Wyatt's Conchology, Hitchcock's and Loomis' Geology, Alexander's and McIlvaine's Evidences of Christianity.

HAMILTON COLLEGE.

LECTURES.

Lectures are delivered on those subjects, in the College Course, which are not more advantageously taught by the use of approved text books, viz :

To the Senior Class, on Chemistry, in the	First Term.
International Law,	First and Second Term.
Geology,	Second and Third Term.
Astronomy,	Second Term.
Evidences of Christianity,	First and Second Term.
To the Junior Class, on Classical Literature,	First Term.

To the Sophomore Class, on Conchology,	First Term.
Greek Orators,	Second Term.
English Literature,	Second Term.
Mineralogy,	Third Term.
To the Freshman Class, on Elocution,	First Term.
Greek Poets,	Third Term.

RHETORICAL EXERCISES.

Weekly exercises in Composition, and Forensic Disputation, take place in the several Classes. Besides these, on Wednesday and Saturday of each week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, and original Essays and Orations, under the direction of the Professor who has charge of the Rhetorical Department.

ASTRONOMY.

As a means of giving more complete instruction in this Department, and also for the purpose of original observation, an Astronomical Observatory has been erected on the College grounds.

It consists of a central building, with wings on the east and west side. The central building is twenty-seven feet square, and two stories high, surmounted by a revolving tower, twenty feet in diameter.

The great Equatorial in the tower, has an object glass of 13.5 in. in diameter, and a focal length of nearly sixteen feet : it is provided with six positive, and six negative eye-pieces, and with a filar micrometer. The declination circle, of twenty-four inches, by means of four verniers, reads to four seconds of arc ; the hour circle, of fourteen inches, by means of two verniers, reads to two seconds of time. The Instrument is mounted upon a granite shaft, nine feet in height, resting upon a pier of solid masonry.

HAMILTON COLLEGE.

The wings are each eighteen feet square ; the east room is used as an office for the Director. In the west room is mounted a portable Transit Instrument of the largest size, the gift of HORACE D. KELLOGG, Esq., of Bridgewater, and constructed by W. Wurdemann, of Washington, D. C. It has a cast iron folding stand, invented by the maker.

Near the Transit is an Astronomical Clock, constructed by William Bond & Son, Boston, and presented by WM. CURTIS NOYES, Esq., of New York. It is regulated for mean time, and already provided with the break-circuit, for telegraphic operations. Besides, the Observatory possesses a Sidereal Chronometer, constructed by the same makers, with the most recently improved compensation balance.

It is believed that all these instruments, and others with which the Observatory will soon be supplied, will greatly increase the scientific advantages of the College, and furnish additional incentives to astronomical study.

CHEMISTRY.

A new building has been erected, for the better accommodation of students in this department. It is intended that superior facilities shall be furnished for the acquisition of a practical knowledge of the science of Chemistry. Much attention will be given to Analysis, and also to Chemistry as applied to the Arts and Agriculture.

LIBRARIES AND CABINETS.

The College and Society Libraries, amounting to 10,000 volumes, are at all times accessible to Students. Geological and Mineralogical Cabinets, and Collections in Natural History, are also connected with the College, embracing the following, viz :

1. 9,000 Specimens of Ores and Simple Minerals.
2. 2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
3. 1,000 Specimens to illustrate the Geology of the United States.
4. 600 Specimens of Fossils, mostly from the Silurian Formations of Europe.
5. 500 Specimens from the Coal Formations of the United States.
6. 250 Specimens from the New Red Sandstone Formation.
7. 600 Specimens of Crystallized Minerals from New York localities.
8. 2,000 Specimens of Land, Fresh-water and Marine Shells.
9. 300 Specimens in Ornithology, from China.
10. 13 Cases of Specimens in Entomology.

HAMILTON COLLEGE.

RELIGIOUS INSTRUCTION.

Morning and evening Prayers, with reading of the Scriptures, are attended in the College Chapel. Public Services are attended in the Chapel, on the Sabbath, when all the Students are required to be present, except such as have permission to attend at other places of worship. On Sabbath evening there is a Religious Service under the direction of the College Pastor, which all the Students are invited to attend. It is intended to arrange during the year a systematic course of Biblical Instruction for the several classes.

EXAMINATIONS.

1. Of all the Classes at the close of the First Term.
2. Of all the Classes at the close of the Second Term.
3. Of the Senior Class four weeks previous to Commencement.
4. Of the three other Classes the week previous to Commencement.

PRIZES.

Prizes in the form of valuable books are annually awarded to the two Students in each of the three lower Classes, who exhibit the highest degree of excellence in public Declamation ; also to the two in each Class who exhibit the highest degree of excellence in English Composition.

At the close of the present Collegiate year, the following Prizes will be distributed in money, viz. :

1. The interest of a Prize Fund of \$500, founded by HON. AARON CLARK, of New York, will be given, in one Prize, to the Student who excels in *Oratory*.
2. The interest of a Prize Fund of \$500, founded by HON. GEORGE UNDERWOOD, of Auburn, will be given, in two Prizes, to members of the Senior Class who excel in *Chemistry*.
3. The interest of a Prize Fund of \$500, founded by HORACE D. KELLOGG, Esq., of Bridgewater, will be given, in two Prizes, to members of the Junior Class who excel in *Classical Studies*.
4. Two Prizes will be given to members of the Sophomore Class who excel in *Mathematics*.

PUBLIC EXHIBITIONS.

1. Junior Exhibition, at the close of the Second Term.
2. Clark Prize Exhibition, on the second Wednesday evening in June.
3. Prize Declamation, on the Monday evening preceding Commencement.
4. Commencement, on the Thursday after the third Wednesday in July.

HAMILTON COLLEGE.

TERMS.

1. From the second Wednesday in September, thirteen weeks.
2. From the first Wednesday in January, thirteen weeks.
3. From the fourth Wednesday in April, to Commencement.

EXPENSES.

Board, from \$2 to \$3 per week,.....	\$78 00 to \$117 00
Room Rent, \$3 per Term,.....	9 00 " 9 00
For sweeping and other contingencies,.....	4 00 " 4 00
Fuel and lights,.....	5 00 " 10 00
Tuition,.....	30 00 " 30 00
	<hr/>
Amount,.....	\$126 00 \$170 00

In addition to the above, any damages voluntarily committed in the community of students, are charged to the individuals committing them when known; to the whole body, when not known, under the name of Extra Contingencies.

The above estimate of expenses is, of course, considerably diminished in the case of those Students who take advantage of the resolution of the Board of Trustees, which provides for a remission of their bills for tuition.

A Student admitted to an advanced standing, unless from another College, is charged, to the Sophomore Class, \$7; to the Junior, \$10; to the Senior, \$12.

Students whose circumstances make it necessary for them to take schools during the winter season, are permitted to be absent from their Classes for that purpose.

PAYMENT OF BILLS.

It is provided by a resolution of the Board of Trustees :

1. That no Student shall be permitted to enter on a second, or any succeeding Term, until he shall have paid, or secured to the satisfaction of the Treasurer, the fees of the preceding Term.

2. That no Student can have an honorable dismissal from this College, or certificate of his previous attendance in it, until all his bills are paid, or satisfactorily secured.

3. That in extreme cases, a student whose circumstances render it necessary, and who shall present satisfactory testimonials of that fact to the Executive Committee, if he is a worthy member of College, and his under graduate course is completed in this Institution, can have his bills for tuition remitted.

HAMILTON COLLEGE.

SECOND DEGREES.

Graduates of three years' standing, are entitled to the degree of Master of Arts, on application to the President. The fee for the Diploma is \$5.00, payable in advance.

ABSENCE FROM COLLEGE.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for Students to visit their friends during the Term, except for urgent and unforeseen reasons. The occasional loss of a day, can not fail to have an unfavorable bearing on the intellectual habits and standing of the Student. It is hoped that parents and guardians will concur with the Faculty, in their opinion of the inexpediency of granting leave of absence in ordinary cases. During vacations, the College buildings are closed, and it is not thought desirable that Students from abroad should remain in Clinton.

Members of the Senior Class cannot be graduated, unless they have been in attendance during two terms of the Senior year. No Student is permitted to take part in the exercises of Commencement day, who has not spent the third term of his Senior year in College, and made his preparation on the ground.

Every omitted recitation must be recited within two weeks after the Student's return to College duties.

LAW DEPARTMENT.

The course of instruction in Law includes the thorough and careful study of the most approved text books. Among these are Blackstone's and Kent's Commentaries, Parsons on Contracts, Cruise's Digest of the Law of Real Estate, (Greenleaf's edition,) Greenleaf on Evidence, Vol. 1st, and the Code of Procedure.

The great object aimed at, is to store the mind of the student with the fundamental principles of the Law. This is to be accomplished in such a way that he can give at any time, a full and accurate expression of legal rules. The text books are to be so mastered that any question may be answered readily and with exactness. Reviews of previous exercises are often repeated, until the student becomes as familiar with the rudiments of law as with the rudiments of a language. At each exercise, every student is examined on the subject studied, and expected to give the results of the text in his own words.

The Professor connects oral and familiar lectures with each recitation, putting cases to the class, involving the principles of the text, and requiring a solution, and endeavoring in every manner which may suggest itself, to quicken and interest the student by exciting his own mind to continual action. Instead of the fitful and intermittent studies of the law office, pursued often in confusion and amidst other circumstances tending to distract the mind, the student studies law as he does any other science, with a systematic purpose and plan. Experience has proved by its unfailing tests, that on such a basis, underlying the superstructure of a careful practice, sound and accurate lawyers will be formed.

Particular attention is given to the study of the law of real estate. At each exercise, one or more of the students is required to examine points of law, and read before the class an essay, setting forth some legal principle, and the authorities sustaining it, and also from time to time to prepare various conveyances, as well as the legal papers used in the progress of a suit.

Moot Courts are held once a week, in which the case is furnished by the Professor, and heard before him as a judge.

Any person of good moral character, who complies with the rules of the department, may join the class. The prescribed course of study for College graduates is one year ; for those not graduated, one year and one-third. After

having passed the regular course of study, and the examination prescribed by the rules of the College, the student is entitled to the degree of Bachelor of Laws. No other examination is necessary for admission to the Bar. By the Laws of 1858, chap. 310, every graduate of the Law School is entitled to a certificate to practice as an Attorney and Counsellor of the Supreme Court. The terms of tuition are \$20 per term, or \$60 per year, with a graduation fee of \$5.

Students who do not wish to graduate, can remain any number of terms which they may choose, or study any one of the subjects embraced in the course. The order of studies in the principal subjects is : the Law of Contracts in the fall term ; of Real Estate in the winter term ; and Real Estate completed, Evidence, &c., in the spring term.

The Text Books are furnished by the Institution, and loaned to the student without charge, with the exception of Blackstone and Kent.

The Proverbs in the Idyls of Theocritus.

FOR THE SOPHOMORES.

A Critical Estimate of the Epistle to the Pisos.
Ridicule and Invective as Elements of Oratory.

FOR THE FRESHMEN.

A Description of Ancient Babylon.
The Uses and Methods of Studying History.

REGULATIONS FOR PRIZE COMPOSITION.

1. Every Student, in actual attendance during the Second Term, has the privilege of writing upon either, or both, of the subjects assigned to the Class of which he is a member ; but no one can receive two prizes in a single year.
2. Each essay must contain not more than two sheets of letter paper, and must be so written that the MS. will show broad margins, and be suitable for binding ; it must be signed with a fictitious name, and this fictitious name superscribed on a sealed note containing the writer's real name.
3. The Essays must be left with the President before 12 o'clock on the first Friday in the Third Term.
4. The Faculty will appoint a Committee of Literary Gentlemen to select the best Essay on each of the subjects assigned to the several Classes.
5. The two successful Essayists, from each Class will be announced at the close of the Third Term ; and books of value will be given as prizes, on Commencement day.
6. A copy of each successful Essay will be preserved in the College Library.
7. The unsuccessful Essays may be had by calling upon the Librarian at the close of the Third Term.

Subjects for the Fiftly Clark Prize Exhibition.

WEDNESDAY, JUNE 8, 1859.

1. The Weakness of Scepticism.
2. Crises in American History.
3. Astronomy as a Field for the Imagination.
4. Goldsmith as a Representative Irishman.
5. Moral Principle a Condition of Mental Power.
6. English and French Soldiers Compared.

REGULATIONS FOR THE CLARK PRIZE.

1. Every member of the Senior Class, in actual attendance during the Second Term, may write upon either one of the subjects assigned.
2. Each Oration must be no longer than should be delivered in twelve minutes; it must be signed with a fictitious name, and this name superscribed on a sealed note containing the author's real name.
3. The Orations must be left with the President, before twelve o'clock on the last Tuesday of the Second Term.
4. The best six Orations will be selected by the Faculty, and the names of the successful competitors will be announced on the second Thursday in May.
5. The Orations will be delivered, under the direction of the Rhetorical Professor, on the evening of the second Wednesday in June.
6. The Prize will be awarded on Commencement day.
7. A copy of each of the Orations will be kept in the College Library.

REGULATIONS FOR THE FOURTH
KELLOGG PRIZE EXAMINATION,
SATURDAY, APRIL 30th, 1859.

1. Members of the Junior Class intending to compete at the Kellogg Prize Examination, must make known this intention to their Classical Instructor, on or before the last Saturday in February.

2. The examination will be held in the Ante-room of the Cabinet, commencing at a quarter past eight, and closing at half past twelve.

3. Competitors are required to bring with them pens and ink. Paper will be furnished at the examination room.

4. Competitors are not allowed to bring with them any written or printed matter, or to hold any communication with each other. A violation of this rule will vitiate the work of the one so doing.

5. Only one face of each half sheet is to be written upon, the other being left blank. There should also be an inch of margin on the left edge of each sheet.

6. The pages should be numbered at the top, with the Student's name repeated beneath each number.

7. The several portions of the work should likewise be numbered according to the numbers of the printed questions.

8. At a quarter past twelve notice will be given, that competitors may review, correct, and finish their work. At half past twelve the papers are to be given up.

9. In estimating the merit of the Student's work, two points will be especially considered:—

(1.) Exactness in rendering ; fullness and accuracy of information on the subjects proposed.

(2.) Neatness, elegance, and logical arrangement in the exhibition and utterance of knowledge.

10. The kinds of work to be done will be as follows, viz :—

(1.) Translation from and into Greek, Latin and French.

(2.) Analysis of words, including derivation, synonyms, inflexion and dialectic changes.

(3.) Analysis of sentences, with rules of construction, illustrative quotations, and the answering of questions in History, Geography and Mythology.

(4.) Analysis of metres, including quantity, rhythms and nomenclature.

(5.) Rules and practice of Greek accentuation.

(6.) Criticism on the style, spirit and subject-matter of the authors quoted from.

HAMILTON COLLEGE.

Admission.

It is required that the candidates for admission to the Freshman Class, should not be less than fourteen years of age, with a corresponding increase for an advanced standing; that they furnish evidence of good moral character; and, if from another College, a regular dismissal; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

Preparatory Studies.

1. Geography and Arithmetic.
2. English, Latin and Greek Grammar, including Prosody and correct accentuation in reading.
3. Sallust, or Cæsar's Commentaries.
4. Virgil's *Æneid*.
5. Cicero's Select Orations.
6. Prose of the Greek Reader.
7. First Book of Xenophon's *Anabasis*.
8. Algebra to Quadratic Equations.

The ENTRANCE EXAMINATIONS are held on the Monday preceding Commencement, and on the last day of the ensuing vacation.

Course of Instruction.

The whole course of instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning and vigorous application; and at the same time, furnish it with the great leading facts and principles in Literature, Science and the Arts.

HAMILTON COLLEGE.

THE FOLLOWING IS A GENERAL VIEW OF THE STUDIES OF EACH TERM :

Rhetorical Exercises.

Weekly exercises in Composition and Forensic Disputation take place in the several Classes. Besides these, on Wednesday and Saturday of each week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, and original Essays and Orations, under the direction and criticism of the Professor of Rhetoric.

Astronomy.

As a means of giving more complete instruction in this Department, and also for the purpose of original observation, an Astronomical Observatory has been erected on the College grounds.

It consists of a central building, with wings on the east and west side. The central building is twenty-seven feet square, and two stories high, surmounted by a revolving tower, twenty feet in diameter.

The great Equatorial in the tower has an object-glass of 13.5 in. in diameter, and a focal length of nearly sixteen feet; it is provided with six positive and six negative eye-pieces, and with a filar micrometer. The declination circle, of twenty-four inches, by means of four verniers, reads to four seconds of arc; the hour circle, of fourteen inches, by means of two verniers, reads to two seconds of time. The Instrument is mounted upon a granite shaft, nine feet in height, resting upon a pier of solid masonry.

The wings are each eighteen feet square; the east room is used as an office for the Director. In the west room is mounted a portable Transit Instrument of the largest size, the gift of HORACE D. KELLOGG, Esq., of Bridgewater, and constructed by W. Wurdemann, of Washington, D. C. It has a cast iron folding stand, invented by the maker.

Near the Transit is an Astronomical Clock, constructed by William Bond & Son, Boston, and presented by WM. CURTIS NOYES, Esq., of New York. It is regulated for mean time, and provided with the break-circuit for telegraphic operations. By the side of the Clock is a Chronograph, of Bond's most recent construction, and regulated by the Spring Governor, presented by MICHAEL MOORE, Esq., of Trenton Falls. These instruments have been connected by a telegraphic wire with the nearest station; and the longitude of the Observatory has thus been accurately determined by exchanging star signals with the Harvard College Observatory, at Cambridge, Mass.

Besides, the Observatory possesses a Sidereal Chronometer, constructed by the same makers, with the most recently improved compensation balance: this Instrument was the gift of the late GEORGE UNDERWOOD, Esq., of Auburn.

It is believed that all these instruments, and others with which the Observatory will soon be supplied, will greatly increase the scientific advantages of the College, and furnish additional incentives to astronomical study.

Chemistry.

A new building has been erected, for the better accommodation of Students in this Department. It is intended that superior facilities shall be furnished for the acquisition of a practical knowledge of the science of Chemistry. Much attention will be given to Analysis, and also to Chemistry as applied to the Arts and Agriculture.

At the commencement of the Second Term a volunteer class is formed, with special reference to those who wish to improve their knowledge of Chemical Analysis. The time is devoted to qualitative and quantitative analysis, and to Chemistry as applied to the Arts and Agriculture. A public examination is held in the Third Term, beginning on the last Wednesday in May; at the close of which prizes are awarded to the two most successful competitors. No extra charge is made for instruction.

Libraries and Cabinets.

The College and Society Libraries, amounting to 10,000 volumes, are at all times accessible to Students. Geological and Mineralogical Cabinets, and Collections in Natural History, are also connected with the College, embracing the following, viz :

- 1.—9,000 Specimens of Ores and Simple Minerals.
- 2.—2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
- 3.—1,000 Specimens to illustrate the Geology of the United States.
- 4.—600 Specimens of Fossils, mostly from the Silurian Formations of Europe.
- 5.—500 Specimens from the Coal Formations of the United States.
- 6.—250 Specimens from the New Red Sandstone Formation.
- 7.—600 Specimens of Crystallized Minerals from New York localities.
- 8.—2,000 Specimens of Land, Fresh-water and Marine Shells.
- 9.—300 Specimens in Ornithology, from China.
- 10.—13 Cases of Specimens in Entomology.

Religious Instruction.

Morning and evening Prayers, with reading of the Scriptures, are attended in the College Chapel. Public services are attended in the Chapel, on the Sabbath, when all the Students are required to be present, except such as have permission to attend at other places of worship. On Sabbath and Tuesday evenings there are Religious Services, which all the Students are invited to attend. A systematic course of Biblical Instruction has been arranged for the several classes, a statement of which may be found in the General View of the studies for the year.

The Society of Christian Research holds its meetings monthly, when reports are read on the condition of Christian missions in various parts of the world, and questions of religious interest are discussed.

HAMILTON COLLEGE.

Examinations.

1. Of all the Classes at the close of the First Term.
2. Of all the Classes at the close of the Second Term.
3. Of the Senior Class four weeks previous to Commencement.
4. Of the three other Classes the week previous to Commencement.

Prizes.

Prizes in the form of valuable books are annually awarded to the two Students in each of the three lower Classes, who exhibit the highest degree of excellence in public Declamation; also to the two in each Class who exhibit the highest degree of excellence in English Composition.

At the close of the present Collegiate year, the following Prizes will be distributed in money, viz.:

1. The interest of a Prize Fund of \$500, founded by Hon. AARON CLARK, of New York, will be given, in one Prize, to the Student who excels in *Oratory*.
2. The interest of a Prize Fund of \$500, founded by Hon. GEORGE UNDERWOOD, of Auburn, will be given, in two Prizes, to members of the Senior Class who excel in *Chemistry*.
3. The interest of a Prize Fund of \$500, founded by HORACE D. KELLOGG, Esq., of Bridgewater, will be given, in two Prizes, to members of the Junior Class who excel in *Classical Studies*.
4. Two Prizes will be given to members of the Sophomore Class who excel in *Mathematics*.

HAMILTON COLLEGE.

In addition to the above, any damages voluntarily committed in the community of students, are charged to the individuals committing them, when known; to the whole body, when not known. under the name of Extra Contingencies.

The above estimate of expenses is, of course, considerably diminished in the case of those Students who take advantage of the resolution of the Board of Trustees, which provides for a remission of their bills for tuition.

A Student admitted to an advanced standing, unless from another College, is charged, to the Sophomore Class, \$7; to the Junior, \$10; to the Senior, \$12.

Payment of Bills.

It is provided by a resolution of the Board of Trustees:

1. That no student shall be permitted to enter on a second, or any succeeding Term, until he shall have paid, or secured to the satisfaction of the Treasurer, the fees of the preceding Term.

2. That no student can have an honorable dismissal from this College, or certificate of his previous attendance in it, until all his bills are paid, or satisfactorily secured.

3. That in extreme cases, a student whose circumstances render it necessary, and who shall present satisfactory testimonials of that fact to the Executive Committee, if he is a worthy member of College. and his under-graduate course is completed in this Institution, can have his bills for tuition remitted.

Second Degrees.

Graduates of three years' standing, are entitled to the degree of Master of Arts, on application to the President. The fee for the Degree and Diploma is \$5, payable in advance.

Absence from College.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for students to visit their friends during the Term, except for urgent and unforeseen reasons. The occasional loss of a day, can not fail to have an unfavorable bearing on the intellectual habits and standing of the student. It is hoped that parents and guardians will concur with the Faculty, in their opinion of the inexpediency of granting leave of absence in ordinary cases. During vacations, the College buildings are closed, and it is not thought desirable that students from abroad should remain in Clinton.

Every omitted recitation must be recited within two weeks after the student's return to College duties; and no deduction for absence will be made in the Term bills, where the student returns to the same class which he left.

Members of the Senior Class can not be graduated, unless they have been in attendance during two terms of the Senior year. No student is permitted to take part in the exercises of Commencement day, who has not spent the third term of his Senior year in College, and made his preparation on the ground.

Teaching.

Students whose circumstances make it necessary for them to take schools during the winter season, are permitted to be absent from their Classes for that purpose.

The Faculty keep a Register of Graduates wishing engagements to teach, and will aim to nominate suitable candidates in reply to applications for teachers.

LAW DEPARTMENT.

The course of instruction in Law includes the thorough and careful study of the most approved text-books. Among these are Blackstone's and Kent's Commentaries, Parsons on Contracts, Cruise's Digest of the Law of Real Estate (Greenleaf's edition), Greenleaf on Evidence, vol. 1st, and the Code of Procedure.

The great object aimed at, is to store the mind of the student with the fundamental principles of the Law. This is to be accomplished in such a way that he can give at any time, a full and accurate expression of legal rules. The text-books are to be so mastered that any question may be answered readily and with exactness. Reviews of previous exercises are often repeated, until the student becomes as familiar with the rudiments of Law as with the rudiments of a language. At each exercise, every student is examined on the subjects studied, and expected to give the results of the text in his own words.

The Professor connects oral and familiar lectures with each recitation, putting cases to the class, involving the principles of the text, and requiring a solution, and endeavoring in every manner which may suggest itself, to quicken and interest the student by exciting his own mind to continual action. Instead of the fitful and intermittent studies of the law office, pursued often in confusion and amidst other circumstances tending to distract the mind, the student studies law as he does any other science, with a systematic purpose and plan. Experience has proved by its unfailing tests, that on such a basis, underlying the superstructure of a careful practice, sound and accurate lawyers will be formed.

Particular attention is given to the study of the law of real estate. At each exercise, one or more of the students is required to examine points of law, and read before the class an essay, setting forth some legal principle, and the authorities sustaining it, and also from time to time to prepare various conveyances, as well as the legal papers used in the progress of a suit.

Moot Courts are held once a week, in which the case is furnished by the Professor, and heard before him as a judge.

Any person of good moral character, who complies with the rules of the department, may join the class. The prescribed course of study for College graduates is one year; for those not graduated, one year and one-third. After having passed the regular course of study, and the examination prescribed by the rules of the College, the student is entitled to the degree of Bachelor of

HAMILTON COLLEGE.

Laws. No other examination is necessary for admission to the Bar. By the Laws of 1858, chap. 310, every graduate of the Law School is entitled to a certificate to practice as an Attorney and Counsellor of the Supreme Court. The terms of tuition are \$20 per term, or \$60 per year, with a graduation fee of \$5.

Students who do not wish to graduate, can remain any number of terms which they may choose, or study any one of the subjects embraced in the course. The order of studies in the principal subjects is: the Law of Contracts in the fall term; of Real Estate in the winter term; and Real Estate completed, Evidence, etc., in the spring term.

The Text-books are furnished by the Institution, and loaned to the student without charge, with the exception of Blackstone and Kent.

"The Relations of Christian Ethics to the Fine Arts."

FOR THE JUNIORS.

"Gesture, as an Art of Expression."

"Æschylus' Clytemnestra and Shakspeare's Lady Macbeth."

FOR THE SOPHOMORES.

"La Marseillaise: its Origin, Structure and Effects."

"English Lexicography."

FOR THE FRESHMEN.

"The Good and Evil of Translations."

"Palestine: its Geography and Commercial Relations."

REGULATIONS FOR PRIZE COMPOSITION.

1. Every Student, in actual attendance during the Second Term, has the privilege of writing upon either, or both, of the subjects assigned to the Class of which he is a member; but no one can receive two prizes in a single year.

2. Each essay must contain not more than two sheets of letter paper, and must be so written that the MS. will show broad margins, and be suitable for binding: it must be signed with a fictitious name, and this fictitious name superscribed on a sealed note containing the writer's real name.

3. The Essays must be left with the President before 12 o'clock on the first Friday in the Third Term.

4. The Faculty will appoint a Committee of Literary Gentlemen to select the best Essay on each of the subjects assigned to the several Classes.

5. The two successful Essayists, from each Class, will be announced at the close of the Third Term; and books of value will be given as prizes, on Commencement day:

6. A copy of each successful Essay will be preserved in the College Library.

7. The unsuccessful Essays may be had by calling upon the Librarian at the close of the Third Term.

SUBJECTS

FOR THE

Sixth Clark Prize Exhibition.

WEDNESDAY, JUNE 13, 1860.

1. "The Narrowness of Human Knowledge."
 2. "The Influence of Individuals in a State."
 3. "Memory, as a Retributive Power."
 4. "The Heroines of History."
 5. "Architecture, as expressing National Character."
 6. "Submission to Law a Condition of Liberty."
-

REGULATIONS FOR THE CLARK PRIZE.

1. Every member of the Senior Class, in actual attendance during the Second Term, may write upon either one of the subjects assigned.
2. Each Oration must be no longer than should be delivered in twelve minutes; it must be signed with a fictitious name, and this name superscribed on a sealed note containing the author's real name.
3. The Orations must be left with the President, before twelve o'clock on the last Tuesday of the Second Term.
4. The best six Orations will be selected by the Faculty, and the names of the successful competitors will be announced on the second Thursday in May.
5. The Orations will be delivered, under the direction of the Rhetorical Professor, on the evening of the second Wednesday in June.
6. The Prize will be awarded on Commencement day.
7. A copy of each of the Orations will be kept in the College Library.

REGULATIONS FOR THE
Fifth Kellogg Prize Examination.

SATURDAY, APRIL 28, 1860.

1. Members of the Junior Class intending to compete at the Kellogg Prize Examination, must make known this intention to their Classical Instructor, on or before the last Saturday in February.

2. The examination will be held in the ante-room of the Cabinet, commencing at eight o'clock, and closing at half past twelve.

3. Competitors are required to bring with them pens and ink. Paper will be furnished at the examination room.

4. Competitors are not allowed to bring with them any written or printed matter, or to hold any communication with each other. A violation of this rule will vitiate the work of the one so doing.

5. Only one face of each half sheet is to be written upon, the other being left blank. There should also be an inch of margin on the left edge of each sheet.

6. The pages should be numbered at the top, with the Student's name repeated beneath each number.

7. The several portions of the work should likewise be numbered according to the numbers of the printed questions.

8. At a quarter past twelve, notice will be given that competitors may review, correct, and finish their work. At half past twelve the papers are to be given up.

9. In estimating the merit of the Student's work, two points will be especially considered:—

(1.) Exactness in rendering; fullness and accuracy of information on the subjects proposed.

(2.) Neatness, elegance, and logical arrangement in the exhibition and utterance of knowledge.

10. The kinds of work to be done will be as follows, viz:—

(1.) Translation from and into Greek, Latin and French.

(2.) Analysis of words, including derivation, synonyms, inflection and dialectic changes.

(3.) Analysis of sentences, with rules of construction, illustrative quotations, and the answering of questions in History, Geography and Mythology.

(4.) Analysis of metres, including quantity, rhythms and nomenclature.

(5.) Rules and practice of Greek accentuation.

(6.) Criticism on the style, spirit and subject-matter of the authors quoted from.

Hamilton College.

Admission.

It is required that the candidates for admission to the Freshman Class, should not be less than fourteen years of age, with a corresponding increase for an advanced standing; that they furnish evidence of good moral character; and, if from another College, a regular dismissal; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

Preparatory Studies.

1. Geography and Arithmetic.
2. English, Latin and Greek Grammar, including Prosody and correct accentuation in reading.
3. Sallust, or Cæsar's Commentaries.
4. Virgil's *Æneid*.
5. Cicero's Select Orations.
6. Prose of the Greek Reader.
7. First Book of Xenophon's *Anabasis*.
8. Algebra to Quadratic Equations.

The ENTRANCE EXAMINATIONS are held on the Monday preceding Commencement, and on the last day of the ensuing vacation.

Course of Instruction.

The whole course of instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning and vigorous application; and at the same time, furnish it with the great leading facts and principles in Literature, Science and the Arts.

Rhetorical Exercises.

Weekly exercises in Composition and Forensic Disputation take place in the several Classes. Besides these, on Wednesday and Saturday of each week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, and original Essays and Orations, under the direction and criticism of the Professor of Rhetoric.

Astronomy.

As a means of giving more complete instruction in this Department, and also for the purpose of original observation, an Astronomical Observatory has been erected on the College grounds.

It consists of a central building, with wings on the east and west side. The central building is twenty-seven feet square, and two stories high, surmounted by a revolving tower, twenty feet in diameter.

The great Equatorial in the tower has an object-glass of 13.5 in. in diameter, and a focal length of nearly sixteen feet; it is provided with six positive and six negative eye-pieces, and with a filar micrometer. The declination circle,

HAMILTON COLLEGE.

of twenty-four inches, by means of four verniers, reads to four seconds of arc ; the hour circle, of fourteen inches, by means of two verniers, reads to two seconds of time. The instrument is mounted upon a granite shaft, nine feet in height, resting upon a pier of solid masonry.

The wings are each eighteen feet square ; the east room is used as an office for the Director. In the west room is mounted a portable Transit Instrument of the largest size, the gift of HORACE D. KELLOGG, Esq., of Bridgewater, and constructed by W. Wurdemann, of Washington, D. C. It has a cast iron folding stand, invented by the maker.

Near the Transit is an Astronomical Clock, constructed by William Bond & Son, Boston, and presented by WM. CURTIS NOYES, Esq., of New York. It is regulated for mean time, and provided with the break-circuit for telegraphic operations. By the side of the Clock is a Chronograph, of Bond's most recent construction, and regulated by the Spring Governor, presented by MICHAEL MOORE, Esq., of Trenton Falls. These instruments have been connected by a telegraphic wire with the nearest station ; and the longitude of the Observatory has thus been accurately determined by exchanging star signals with the Harvard College Observatory, at Cambridge, Mass.

Besides, the Observatory possesses a Siderial Chronometer, constructed by the same makers with the most recently improved compensation balance ; this Instrument was the gift of the late GEORGE UNDERWOOD, Esq., of Auburn.

It is believed that all these instruments, and others with which the Observatory will soon be supplied, will greatly increase the scientific advantages of the College, and furnish additional incentives to astronomical study.

Chemistry.

A building has been erected, for the better accommodation of Students in this Department. It is intended that superior facilities shall be furnished for the acquisition of a practical knowledge of the science of Chemistry. Much attention will be given to Analysis, and also to Chemistry as applied to the Arts and Agriculture.

At the commencement of the Second Term a volunteer class is formed, with special reference to those who wish to improve their knowledge of Chemical Analysis. The time is devoted to qualitative and quantitative analysis, and to Chemistry as applied to the Arts and Agriculture. A public examination is held in the Third Term, beginning on the last Wednesday in May ; at the close of which prizes are awarded to the two most successful competitors. No extra charge is made for instruction.

Libraries and Cabinets.

The College and Society Libraries, amounting to 10,000 volumes, are at all times accessible to Students. Geological and Mineralogical Cabinets, and Collections in Natural History, are also connected with the College, embracing the following, viz :

- 1.—9,000 Specimens of Ores and Simple Minerals.
- 2.—2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.

HAMILTON COLLEGE.

- 3.—1,000 Specimens to illustrate the Geology of the United States.
- 4.—600 Specimens of Fossils, mostly from the Silurian Formations of Europe.
- 5.—500 Specimens from the Coal Formations of the United States.
- 6.—250 Specimens from the New Red Sandstone Formation.

Religious Instruction.

Morning and evening Prayers, with reading of the Scriptures, are attended in the College Chapel. Public services are attended in the Chapel, on the Sabbath, when all the Students are required to be present, except such as have permission to attend at other places of worship. On Sabbath and Tuesday evenings there are religious services, which all the Students are invited to attend. A systematic course of Biblical Instruction has been arranged for the several classes, a statement of which may be found in the General View of the studies for the year.

The Society of Christian Research holds its meetings monthly, when reports are read on the condition of Christian missions in various parts of the world, and questions of religious interest are discussed.

Examinations.

1. Of all the Classes at the close of the First Term.
2. Of all the Classes at the close of the Second Term.
3. Of the Senior Class four weeks previous to Commencement.
4. Of the three other Classes the week previous to Commencement.

Prizes.

Prizes, in the form of valuable books, are annually awarded to the two Students, in each of the three lower Classes, who exhibit the highest degree of excellence in public Declamation; also to the two in each Class who exhibit the highest degree of excellence in English Composition.

At the close of the present Collegiate year, the following Prizes will be distributed in money, viz:

1. The interest of a Prize Fund of \$500, founded by Hon. AARON CLARK, of New York, will be given, in one Prize, to the Student who excels in *Oratory*.
2. The interest of a Prize Fund of \$500, founded by Hon. GEORGE UNDERWOOD, of Auburn, will be given, in two Prizes, to members of the Senior Class who excel in *Chemistry*.
3. The interest of a Prize Fund of \$500, founded by HORACE D. KELLOGG, Esq., of Bridgewater, will be given, in two Prizes, to members of the Junior Class who excel in *Classical Studies*.
4. Two Prizes will be given to members of the Sophomore Class who excel in *Mathematics*.

HAMILTON COLLEGE.

Public Exhibitions.

1. Junior Exhibition, at the close of the Second Term.
2. Clark Prize Exhibition, on the second Wednesday evening in June.
3. Prize Declamation, on the Monday evening preceding Commencement.
4. Commencement, on the Thursday after the third Wednesday in July.

Terms.

1. From the second Wednesday in September, thirteen weeks.
2. From the first Wednesday in January, thirteen weeks.
3. From the fourth Wednesday in April, to Commencement.

Expenses.

Board, from \$2 to \$3 per week.....	\$78 00 to \$117 00
Room Rent, \$3 per Term.....	9 00 " 9 00
For Sweeping and other contingencies, per Term.....	4 00 " 4 00
Fuel and lights,.....	5 00 " 10 00
Tuition.....	30 00 " 30 00
Amount.....	\$126 00 \$170 00

In addition to the above, any damages voluntarily committed in the community of students, are charged to the individuals committing them, when known ; to the whole body, when not known, under the name of Extra Contingencies.

The above estimate of expenses is, of course, considerably diminished in the case of those Students who take advantage of the resolution of the Board of Trustees, which provides for a remission of their bills for tuition.

A Student admitted to an advanced standing, unless from another College, is charged, to the Sophomore Class, \$7 ; to the Junior, \$10 ; to the Senior, \$12.

Payment of Bills.

It is provided by a resolution of the Board of Trustees :

1. That no Student shall be permitted to enter on a second, or any succeeding Term, until he shall have paid, or secured to the satisfaction of the Treasurer, the fees of the preceding Term.
2. That no Student can have an honorable dismissal from this College, or certificate of his previous attendance in it, until all his bills are paid, or satisfactorily secured.
3. That in extreme cases, a Student whose circumstances render it necessary, and who shall present satisfactory testimonials of that fact to the Executive Committee, if he is a worthy member of College and his under-graduate course is completed in this Institution, can have his bills for tuition remitted.

Second Degrees.

Graduates of three years' standing, are entitled to the degree of Master of Arts, on application to the President. The fee for the Degree and Diploma is \$5, payable in advance.

Absence from College.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for Students to visit their friends during the Term, except for urgent and unforeseen reasons. The occasional loss of a day, can not fail to have an unfavorable bearing on the intellectual habits and standing of the Student. It is hoped that parents and guardians will concur with the Faculty in their opinion of the inexpediency of granting leave of absence in ordinary cases. During vacations, the College buildings are closed, and it is not thought desirable that Students from abroad should remain in Clinton.

Every omitted recitation must be recited within two weeks after the Student's return to College duties; and no deduction for absence will be made in the Term bills, where the Student returns to the same class which he left.

Members of the Senior Class can not be graduated, unless they have been in attendance during two Terms of the Senior year. No Student is permitted to take part in the exercises of Commencement day, who has not spent the third Term of his Senior year in College, and made his preparation on the ground.

Teaching.

Students whose circumstances make it necessary for them to take schools during the winter season, are permitted to be absent from their Classes for that purpose.

The Faculty keep a Register of Graduates wishing engagements to teach, and will aim to nominate suitable candidates in reply to applications for teachers.

LAW DEPARTMENT.

REV. SAMUEL WARE FISHER, D. D.,

PRESIDENT.

ELLICOTT EVANS, A. M.,

MAYNARD PROFESSOR OF LAW, HISTORY, CIVIL POLITY AND POLITICAL ECONOMY.

The course of instruction in Law includes the thorough and careful study of the most approved text-books. Among these are Blackstone's and Kent's Commentaries, Parsons on Contracts, Cruise's Digest of the Law of Real Estate (Greenleaf's edition), Greenleaf on Evidence, vol. 1st, and the Code of Procedure.

The great object aimed at, is to store the mind of the student with the fundamental principles of the Law. This is to be accomplished in such a way that he can give at any time, a full and accurate expression of legal rules. The text-books are to be so mastered that any question may be answered readily and with exactness. Reviews of previous exercises are often repeated, until the student becomes as familiar with the rudiments of Law as with the rudiments of a language. At each exercise, every student is examined on the subjects studied, and expected to give the results of the text in his own words.

The Professor connects oral and familiar lectures with each recitation, putting cases to the class, involving the principles of the text, and requiring a solution, and endeavoring in every manner which may suggest itself, to quicken and interest the student by exciting his own mind to continual action. Instead of the fitful and intermittent studies of the law office, pursued often in confusion and amidst other circumstances tending to distract the mind, the student studies law as he does any other science, with a systematic purpose and plan. Experience has proved by its unfailing tests, that on such a basis, underlying the superstructure of a careful practice, sound and accurate lawyers will be formed.

Particular attention is given to the study of the law of real estate. At each exercise, one or more of the students is required to examine points of law, and read before the class an essay, setting forth some legal principle, and the authorities sustaining it, and also from time to time to prepare various conveyances, as well as the legal papers used in the progress of a suit.

Moot Courts are held once a week, in which the case is furnished by the Professor, and heard before him as a judge.

HAMILTON COLLEGE.

Any person of good moral character, who complies with the rules of the department, may join the class. The prescribed course of study for College graduates is one year ; for those not graduated, one year and one-third. After having passed the regular course of study, and the examination prescribed by the rules of the College, the student is entitled to the degree of Bachelor of Laws. No other examination is necessary for admission to the Bar. By the Laws of 1858, chap. 310, every graduate of the Law School is entitled to a certificate to practice as an Attorney and Counsellor of the Supreme Court. The terms of tuition are \$20 per term, or \$60 per year, with a graduation fee of \$5.

Students who do not wish to graduate, can remain any number of terms which they may choose, or study any one of the subjects embraced in the course. The order of studies in the principal subjects is : the Law of Contracts in the fall term ; of Real Estate in the winter term ; and Real Estate completed, Evidence, etc., in the spring term.

The Text-books are furnished by the Institution, and loaned to the student without charge, with the exception of Blackstone and Kent.

"Whence originates our Idea of the Moral Quality of Actions?"

FOR THE JUNIORS.

"Prometheus : the Myth and its Moral."

"Shakespeare's Indebtedness to History."

FOR THE SOPHOMORES.

"The Literature of Letter-writing."

"The Battle of Cheronæa."

FOR THE FRESHMEN.

"The Amusements of the Homeric Age."

"The Garden of Eden."

Regulations for Prize Composition.

1. Every Student, in actual attendance during the Second Term, has the privilege of writing upon either, or both, of the subjects assigned to the Class of which he is a member ; but no one can receive two prizes in a single year.

2. Each Essay must contain not more than thirty-five folios, and must be so written that the MS. will show broad margins, and be suitable for binding : it must be signed with a fictitious name, and this fictitious name superscribed on a sealed note containing the writer's real name.

3. The Essays must be left with the President before 12 o'clock on the first Friday in the Third Term.

4. The Faculty will appoint a Committee of Literary Gentlemen to select the best Essay on each of the subjects assigned to the several Classes.

5. The two successful Essayists, from each Class, will be announced at the close of the Third Term ; and books of value will be given as prizes, on Commencement day.

6. A copy of each successful Essay will be preserved in the College Library.

7. The unsuccessful Essays may be had by calling upon the Librarian at the close of the Third Term.

HAMILTON COLLEGE.

SUBJECTS

FOR THE

SEVENTH CLARK PRIZE EXHIBITION.

WEDNESDAY, JUNE 12, 1861.

1. "The Compensations of History."
 2. "The effect of Culture upon Unanimity of Opinion."
 3. "National Songs."
 4. "Intellectual Honesty."
 5. "Satire, as a Means of Reform."
 6. "Character developed by Emergencies."
 7. "Representative Poets."
-

Regulations for the Clark Prize.

1. Every member of the Senior Class, in actual attendance during the Second Term, may write upon either one of the subjects assigned.
2. Each Oration must contain not more than twenty folios; it must be signed with a fictitious name, and this name superscribed on a sealed note containing the author's real name.
3. The Orations must be left with the President, before 12 o'clock on the last Tuesday of the Second Term.
4. The best six Orations will be selected by the Faculty, and the names of the successful competitors will be announced on the second Thursday in May.
5. The Orations will be delivered, under the direction of the Professor of Rhetoric, on the evening of the second Wednesday in June.
6. The Prize will be awarded on Commencement day.
7. A copy of each of the Orations will be kept in the College Library.

REGULATIONS FOR THE
SIXTH KELLOGG PRIZE EXAMINATION.

SATURDAY, APRIL 27, 1861.

1. Members of the Junior Class intending to compete at the Kellogg Prize Examination, must make known this intention to their Classical Instructor, on or before the last Saturday in February.

2. The examination will be held in the ante-room of the Cabinet, commencing at eight o'clock, and closing at half past twelve.

3. Competitors are required to bring with them pens and ink. Paper will be furnished at the examination room.

4. Competitors are not allowed to bring with them any written or printed matter, or to hold any communication with each other. A violation of this rule will vitiate the work of the one so doing.

5. Only one face of each half sheet is to be written upon, the other being left blank. There should also be an inch of margin on the left edge of each sheet.

6. The pages should be numbered at the top, with the Student's name repeated beneath each number.

7. The several portions of the work should likewise be numbered according to the numbers of the printed questions.

8. At a quarter past twelve, notice will be given that competitors may review, correct and finish their work. At half past twelve the papers are to be given up.

9. In estimating the merit of the Student's work, two points will be especially considered :—

(1.) Exactness in rendering ; fullness and accuracy of information on the subjects proposed.

(2.) Neatness, elegance and logical arrangement in the exhibition and utterance of knowledge.

10. The kinds of work to be done will be as follows, viz :—

(1.) Translation from and into Greek, Latin and French.

(2.) Analysis of words, including derivation, synonymes, inflection and dialectic changes.

(3.) Analysis of sentences, with rules of construction, illustrative quotations, and the answering of questions in History, Geography and Mythology.

(4.) Analysis of metres, including quantity, rhythms and nomenclature.

(5.) Rules and practice of Greek accentuation.

(6.) Criticism on the style, spirit and subject-matter of the authors quoted from.

SOCIETY OF ALUMNI.

— • • —

This Society is composed of graduates from the College, and those upon whom it has conferred honorary or *ad eundem* degrees. Among its objects is the encouragement of Science and Letters, more especially in their connection with Hamilton College. It has the use of an alcove in the College Library, to which donations are solicited of books, pamphlets and papers, whose authors are graduates from Hamilton. It seeks also the promotion of friendly feeling and sympathy among its living members, and the rendering of fit honor to the departed. Its anniversary and social meeting are held on the Wednesday before Commencement.

Hamilton College.

Admission.

It is required that the candidates for admission to the Freshman Class, should not be less than fourteen years of age, with a corresponding increase for an advanced standing; that they furnish evidence of good moral character; and, if from another College, a regular dismissal; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

Preparatory Studies.

1. Geography and Arithmetic.
2. English, Latin and Greek Grammar, including Prosody and correct accentuation in reading.
3. Sallust, or Cæsar's Commentaries.
4. Virgil's *Æneid*.
5. Cicero's Select Orations.
6. Prose of the Greek Reader.
7. First Book of Xenophon's *Anabasis*.
8. Algebra to Quadratic Equations.

The ENTRANCE EXAMINATIONS are held on the Monday and Tuesday preceding Commencement, and on the last day of the ensuing vacation.

Course of Instruction.

The whole course of instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning and vigorous application; and at the same time, furnish it with the great leading facts and principles in Literature, Science and the Arts.

Rhetorical Exercises.

Weekly exercises in Composition and Forensic Disputation take place in the several Classes. Besides these, on Wednesday and Saturday of each week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, and original Essays and Orations, under the direction and criticism of the Professor of Rhetoric.

Chemistry.

A building has been erected, for the better accommodation of Students in this Department. It is intended that superior facilities shall be furnished for the acquisition of a practical knowledge of the science of Chemistry. Much attention will be given to Analysis, and also to Chemistry as applied to the Arts and Agriculture.

At the commencement of the Second Term a volunteer class is formed, with special reference to those who wish to improve their knowledge of Chemical Analysis. The time is devoted to qualitative and quantitative analysis, and to Chemistry as applied to the Arts and Agriculture. A public examination is held in the Third Term, beginning on the last Wednesday in May; at the close of which prizes are awarded to the two most successful competitors. No extra charge is made for instruction.

Libraries and Cabinets.

The College and Society Libraries, amounting to 10,000 volumes, are at all times accessible to Students. Geological and Mineralogical Cabinets, and Collections in Natural History, are also connected with the College, embracing the following, viz:

- 1.—9,000 Specimens of Ores and Simple Minerals.
- 2.—2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
- 3.—1,000 Specimens to illustrate the Geology of the United States.
- 4.—600 Specimens of Fossils, mostly from the Silurian Formations of Europe.
- 5.—500 Specimens from the Coal Formations of the United States.
- 6.—250 Specimens from the New Red Sandstone Formation.
- 7.—600 Specimens of Crystallized Minerals from New York localities.
- 8.—2,000 Specimens of Land, Fresh-water, and Marine Shells.
- 9.—300 Specimens in Ornithology, from China.
- 10.—13 Cases of Specimens in Entomology.

The College Grounds.

The Park, in the midst of which the College edifices stand, embraces fifteen acres. This has been laid out in the modern English method, with trees and shrubs scattered over it, singly and in groups, and with carriage-ways and foot-paths winding through its different parts, giving the visitor a view of the entire surface. The trees, deciduous and evergreen, have been arranged chiefly with a view to their landscape effects, though a classification in families has not been wholly lost sight of. A Pinetum has been begun, in which a large number of the conifers, hardy in this climate, may already be found. Among the Elms, Maples, Lindens, Oaks, &c., we have five or six varieties of each species.

In those portions of the ground daily traversed by the students, plots have been laid off and devoted to shrubs, vines, and flowering plants, some of which are cultivated by the under-graduates.

It is the design of the Trustees and the Faculty to render the Park increasingly attractive from year to year. New trees and plants will be added to the present collection as fast as they can be obtained. And, for the more speedy accomplishment of this end, contributions are invited from the friends of the Institution. It is a pleasure, here, to acknowledge handsome donations already received from various persons, especially those from Mr. CHARLES DOWNING, of Newburgh; MESSRS. ELLWANGER & BARRY, of Rochester, and HOVEY & Co., of Boston.

At the last meeting of the Board of Trustees, a vote of thanks was tendered to Prof. ROOT, Rev. A. DELOS GRIDLEY, and JOHN C. HASTINGS, Esq., for their skillful and generous services as Curators of the College Grounds.

Religious Instruction.

Morning and evening Prayers, with reading of the Scriptures, are attended in the College Chapel. Public services are attended in the Chapel, on the Sabbath, when all the Students are required to be present, except such as have permission to attend at other places of worship. On Sabbath and Tuesday evenings there are religious services which all the Students are invited to attend. A systematic course of Biblical Instruction has been arranged for the several classes, a statement of which may be found in the General View of the Studies of the year.

The Society of Christian Research holds its meetings monthly, when reports are read on the condition of Christian missions in various parts of the world, and questions of religious interest are discussed.

Examinations.

1. Of all the Classes at the close of the First Term.
2. Of all the Classes at the close of the Second Term.
3. Of the Senior Class four weeks previous to Commencement.
4. Of the three other Classes the week previous to Commencement.
5. Of Kellogg Prize Competitors, the first Saturday of the Third Term.
6. Of Underwood Prize Competitors, the fifth Wednesday of the Third Term.
7. Of Mathematical Prize Competitors, the eleventh Saturday of the Third Term.

Prizes.

Prizes, in the form of valuable books, are annually awarded to the two Students, in each of the three lower Classes, who exhibit the highest degree of excellence in public Declamation; also to the two in each Class who exhibit the highest degree of excellence in English Composition.

At the close of the present Collegiate year, the following prizes will be distributed in money, viz :

1. The interest of a Prize Fund of \$500, founded by the late Hon. AARON CLARK, of New York, will be given, in one Prize, to the Student who excels in *Oratory*.
2. The interest of a Prize Fund of \$500, founded by the late Hon. GEORGE UNDERWOOD, of Auburn, will be given, in two Prizes, to members of the Senior Class who excel in *Chemistry*.
3. The interest of a Prize Fund of \$500, founded by HORACE D. KELLOGG, Esq., of Bridgewater, will be given, in two Prizes, to members of the Junior Class who excel in *Classical Studies*.
4. Two Prizes will be given to members of the Sophomore Class who excel in *Mathematics*.

Public Exhibitions.

1. Junior Exhibition, at the close of the Second Term.
2. Clark Prize Exhibition, on the second Wednesday evening in June.
3. Prize Declamation, on the Monday evening preceding Commencement.
4. Commencement, on the Thursday after the third Wednesday in July.

Terms.

1. From the second Wednesday in September, thirteen weeks.
2. From the first Wednesday in January, thirteen weeks.
3. From the fourth Wednesday in April, to Commencement.

Expenses.

Board, from \$2 to \$3 per week,.....	\$78 00 to \$117 00	
Room Rent, \$3 per term,.....	9 00 “	9 00
For Sweeping and other contingences, \$5 per term,....	15 00 “	15 00
Fuel and Lights,.....	5 00 “	10 00
Tuition,.....	30 00 “	30 00
	<hr/>	<hr/>
Amount,.....	\$137 00	\$181 00

In addition to the above, any damage voluntarily committed in the community of students, are charged to the individuals committing them, when known ; to the whole body, when not known, under the name of Extra Contingencies.

The above estimate of expenses is, of course, considerably diminished in the case of those Students who take advantage of the resolution of the Board of Trustees, which provides for a remission of their bills for tuition.

A Student admitted to an advanced standing, unless from another College, is charged, to the Sophomore Class, \$7 ; to the Junior, \$10 ; to the Senior, \$12.

Payment of Bills.

It is provided by a resolution of the Board of Trustees :

1. That no Student shall be permitted to enter on a second, or any succeeding Term, until he shall have paid, or secured to the satisfaction of the Treasurer, the fees of the preceding Term.

2. That no Student can have an honorable dismissal from this College, or certificate of his previous attendance in it, until all his bills are paid, or satisfactorily secured.

3. That in extreme cases, a Student whose circumstances render it necessary, and who shall present satisfactory testimonials of that fact to the Executive Committee, if he is a worthy member of College and his undergraduate course is completed in this Institution, can have his bills for tuition remitted.

Second Degrees.

Graduates of three years' standing, are entitled to the degree of Master of Arts, on application to the President. The fee for the Degree and Diploma is \$5, payable in advance.

Absence from College.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for Students to visit their friends during the Term, except for urgent and unforeseen reasons. The occasional loss of a day can not fail to have an unfavorable bearing on the intellectual habits and standing of the Student. It is hoped that parents and guardians will concur with the Faculty in their opinion of the inexpediency of granting leave of absence in ordinary cases. During vacations, the College buildings are closed, and it is not thought desirable that Students from abroad should remain in Clinton.

Every omitted recitation must be recited within two weeks after the Student's return to College duties ; and no deduction for absence will be made in the Term bills, where the Student returns to the same class which he left.

Members of the Senior Class can not be graduated, unless they have been in attendance during two terms of the Senior year. No Student is permitted to take part in the exercises of Commencement day, who has not spent the third Term of his Senior year in College, and made his preparation on the ground.

Teaching.

Students whose circumstances make it necessary for them to take schools during the winter season, are permitted to be absent from their Classes for that purpose.

The Faculty keep a Register of Graduates wishing engagements to teach, and will aim to nominate suitable candidates in reply to applications for teachers.

Beneficiaries.

Students who are candidates for the Christian Ministry, may receive aid, if their circumstances require it, to the amount of from eighty to one hundred dollars a year, on application to the President.

In addition to this, a few Scholarships have been donated to the College, which yield to their occupants enough to pay the ordinary term-bills of the Treasurer.

Law Department.

REV. SAMUEL WARE FISHER, D. D.,
PRESIDENT.

ELLICOTT EVANS, A. M.,
MAYNARD PROFESSOR OF LAW, HISTORY, CIVIL POLITY AND POLITICAL ECONOMY.

The course of instruction in Law includes the thorough and careful study of the most approved text-books. Among these are Blackstone's and Kent's Commentaries, Parsons on Contracts, Cruise's Digest of the Law of Real Estate, (Greenleaf's edition,) Greenleaf on Evidence, vol. 1st, and the Code of Procedure.

The great object aimed at, is to store the mind of the student with the fundamental principles of the Law. This is to be accomplished in such a way that he can give at any time, a full and accurate expression of legal rules. The text-books are to be so mastered that any question may be answered readily and with exactness. Reviews of previous exercises are often repeated, until the student becomes as familiar with the rudiments of Law as with the rudiments of a language. At each exercise, every student is examined on the subjects studied, and expected to give the results of the text in his own words.

The Professor connects oral and familiar lectures with each recitation, putting cases to the class, involving the principles of the text, and requiring a solution, and endeavoring in every manner which may suggest itself, to quicken and interest the student by exciting his own mind to continual action. Instead of the fitful and intermittent studies of the law office, pursued often in confusion and amidst other circumstances tending to distract the mind, the student studies law as he does any other science, with a systematic purpose and plan. Experience has proved by its unfailing tests, that on such a basis, underlying the superstructure of a careful practice, sound and accurate lawyers will be formed.

Particular attention is given to the study of the law of real estate. At each exercise, one or more of the students is required to examine points of law, and read before the class an essay, setting forth some legal principle, and the authorities sustaining it, and also from time to time to prepare various conveyances, as well as the legal papers used in the progress of a suit.

Moot Courts are held once a week, in which the case is furnished by the Professor, and heard before him as a judge.

Any person of good moral character, who complies with the rules of the department, may join the class. The prescribed course of study for College graduates is one year ; for those not graduated, one year and one-third. After having passed the regular course of study, and the examination prescribed by the rules of the College, the student is entitled to the degree of Bachelor of Laws. No other examination is necessary for admission to the Bar. By the Laws of 1855, chap. 310, every graduate of the Law School is entitled to a certificate to practice as an Attorney and Counsellor of the Supreme Court. The terms of tuition are \$20 per term, or \$60 per year, with a graduation fee of \$5.

Students who do not wish to graduate, can remain any number of terms which they may choose, or study any one of the subjects embraced in the course. The order of studies in the principal subjects is : the Law of Contracts in the fall term ; of Real Estate in the winter term ; and Real Estate completed, Evidence, etc., in the spring term.

The text-books are furnished by the Institution, and loaned to the student without charge, with the exception of Blackstone and Kent.

Astronomical Department.

REV. SAMUEL WARE FISHER, D. D.,
PRESIDENT.

CHRISTIAN HENRY FREDERIC PETERS, PH. D.,
DIRECTOR OF THE OBSERVATORY.

ISAAC HOLLISTER HALL, A. B.,
ASSISTANT.

As a means of giving more complete instruction in this Department, and also for the purpose of original observation, an Astronomical Observatory has been erected on the College grounds.

It consists of a central building, with wings on the east and west side. The central building is twenty-seven feet square, and two stories high, surmounted by a revolving tower, twenty feet in diameter.

The great Equatorial in the tower has an object-glass of 13.5 in. in diameter, and a focal length of nearly sixteen feet; it is provided with six positive and six negative eye-pieces, and with a filar micrometer. The declination circle, of twenty-four inches, by means of four verniers, reads to four seconds of arc; the hour circle, of fourteen inches, by means of two verniers, reads to two seconds of time. The instrument is mounted upon a granite shaft, nine feet in height, resting upon a pier of solid masonry.

The wings are each eighteen feet square; the east room is used as an office for the Director. In the west room is mounted a portable Transit Instrument of the largest size, the gift of HORACE D. KELLOGG, Esq., of Bridge-water, and constructed by W. Wurdemann, of Washington, D. C. It has a cast iron folding stand, invented by the maker.

Near the Transit is an Astronomical Clock, constructed by William Bond & Son, Boston, and presented by WM. CURTIS NOYES, Esq., of New York. It is regulated for mean time, and provided with the break-circuit for telegraphic operations. By the side of the Clock is a Chronograph, of Bond's most recent construction, and regulated by the Spring Governor, presented by MICHAEL MOORE, Esq., of Trenton Falls. These instruments have been connected by a telegraphic wire with the nearest station; and the longitude of the Observatory has thus been accurately determined by exchanging star signals with the Harvard College Observatory, at Cambridge, Mass.

Besides, the Observatory possesses a Sidereal Chronometer, constructed by the same makers, with the most recently improved compensation balance; this Instrument was the gift of the late Hon. GEORGE UNDERWOOD, of Auburn.

A Telegraphic Machine also has been presented by Mr. S. W. CHUBBUCK, of Utica, and an Aneroid Barometer by SIMEON BENJAMIN, Esq., of Elmira.

It is believed that all these instruments, and others with which the Observatory will soon be supplied, will greatly increase the scientific advantages of the College, and furnish additional incentives to astronomical study.

"The Comparative Influence of the Reason and the Imagination in the Conduct of Life."

"In what consists the Superiority of Christian Ethics to the Ethical Systems of the Ancients?"

For the Juniors.

"Revolution and Rebellion."

"The Supernatural in Greek Poetry."

For the Sophomores.

"Translations of the Bible."

"Rome in the time of Horace."

For the Freshmen.

"The Orthography of English Words a part of their History."

"The Battle of Oriskany."

REGULATIONS FOR PRIZE COMPOSITION.

1. Every Student, in actual attendance during the Second Term, has the privilege of writing upon either, or both, of the subjects assigned to the Class of which he is a member; but no one can receive two prizes in a single year.

2. Each Essay must contain not more than thirty-five folios, and must be so written that the MS. will show broad margins, and be suitable for binding: it must be signed with a fictitious name, and this fictitious name superscribed on a sealed note containing the writer's real name.

3. The Essays must be left with the President before 12 o'clock on the first Friday in the Third Term.

4. The Faculty will appoint a Committee of Literary Gentlemen to select the best Essay on each of the subjects assigned to the several Classes.

5. The two successful Essayists, from each Class, will be announced at the close of the Third Term; and books of value will be given as prizes, on Commencement day.

6. A copy of each successful Essay will be preserved in the College Library.

7. The unsuccessful Essays may be had by calling upon the Librarian at the beginning of the next Collegiate year.

SUBJECTS

FOR THE

Eighth Clark Prize Exhibition.

WEDNESDAY, JUNE 11, 1862.

-
1. "The Law of Social Progress."
 2. "The Essentials to Military Success"
 3. "The Power of the Youthful Spirit."
 4. "The Source of Authority in the State."
 5. "The Earliest and the Latest Poet Laureate."
 6. "The Right of Private Judgment."
-

REGULATIONS FOR THE CLARK PRIZE.

1. Every member of the Senior Class, in actual attendance during the Second Term, may write upon either one of the subjects assigned.

2. Each Oration must contain not more than twenty folios; it must be signed with a fictitious name, and this name superscribed on a sealed note containing the author's real name.

3. The Orations must be left with the President, before 12 o'clock on the last Tuesday of the Second Term.

4. The best six Orations will be selected by the Faculty, and the names of the successful competitors will be announced on the second Thursday in May.

5. The Orations will be delivered, under the direction of the Professor of Rhetoric, on the evening of the second Wednesday in June.

6. The Prize will be awarded on Commencement Day.

7. A copy of each of the Orations will be kept in the College Library.

REGULATIONS FOR THE

Seventh Kellogg Prize Examination.

SATURDAY, APRIL 26, 1862.

1. Members of the Junior Class intending to compete at the Kellogg Prize Examination, must make known this intention to their Classical Instructor, on or before the last Saturday in February.

2. The examination will be held in the Philosophical Chamber, commencing at eight o'clock, and closing at one o'clock.

3. Competitors are required to bring with them pens and ink. Paper will be furnished at the examination room.

4. Competitors are not allowed to bring with them any written or printed matter, or to hold any communication with each other. A violation of this rule will vitiate the work of the one so doing.

5. Only one face of each half sheet is to be written upon, the other being left blank. There should also be an inch of margin on the left edge of each sheet.

6. The pages should be numbered at the top, with the Student's name repeated beneath each number.

7. The several portions of the work should likewise be numbered according to the numbers of the printed questions.

8. At half past twelve, notice will be given that competitors may review, correct and finish their work. At one o'clock the papers are to be given up.

9. In estimating the merit of the Student's work, two points will be especially considered :—

(1.) Exactness in rendering ; fullness and accuracy of information on the subjects proposed.

(2.) Neatness, elegance and logical arrangement in the exhibition and utterance of knowledge.

10. The kinds of work to be done will be as follows, viz :—

(1.) Translation from and into Greek, Latin and French.

(2.) Analysis of words, including derivation, synonymes, inflection and dialectic changes.

(3.) Analysis of sentences, with rules of construction, illustrative quotations, and the answering of questions in history, geography and mythology.

(4.) Analysis of metres, including quantity, rhythms and nomenclature.

(5.) Rules and practice of Greek accentuation.

(6.) Criticism on the style, spirit and subject-matter of the authors quoted from.

SOCIETY OF ALUMNI.

This Society is composed of graduates from the College, and those upon whom it has conferred honorary or *ad eundem* degrees. Among its objects is the encouragement of Science and Letters, more especially in their connection with Hamilton College. It has the use of an alcove in the College Library, to which donations are solicited of books, pamphlets and papers, whose authors are graduates from Hamilton. It seeks also the promotion of friendly feeling and sympathy among its living members, and the rendering of fit honor to the departed.

Its FIFTIETH ANNIVERSARY will be celebrated, with a dinner and appropriate addresses, on Wednesday before the Commencement of 1862

Hamilton College.

Admission.

It is required that the candidates for admission to the Freshman Class, should not be less than fourteen years of age, with a corresponding increase for an advanced standing; that they furnish evidence of good moral character; and, if from another College, a regular dismission; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

Preparatory Studies.

1. Geography and Arithmetic.
2. English, Latin and Greek Grammar, including Prosody and correct accentuation in reading.
3. Sallust, or Cæsar's Commentaries.
4. Virgil's *Æneid*.
5. Cicero's Select Orations.
6. Prose of the Greek Reader.
7. First Book of Xenophon's *Anabasis*.
8. Algebra to Quadratic Equations.

The ENTRANCE EXAMINATIONS are held on the Monday and Tuesday preceding Commencement, and on the last day of the ensuing vacation.

Course of Instruction.

The whole course of instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning and vigorous application; and at the same time, furnish it with the great leading facts and principles in Literature, Science and the Arts.

Rhetorical Exercises.

Weekly exercises in Composition and Forensic Disputation take place in the several Classes. Besides these, on Wednesday and Saturday of each

week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, and of original Essays and Orations under the direction and criticism of the Professor of Rhetoric.

Chemistry.

A building has been erected, for the better accommodation of Students in this Department. It is intended that superior facilities shall be furnished for the acquisition of a practical knowledge of the science of Chemistry. Much attention will be given to Analysis, and also to Chemistry as applied to the Arts and Agriculture.

At the commencement of the Second Term a volunteer class is formed, with special reference to those who wish to improve their knowledge of Chemical Analysis. The time is devoted to qualitative and quantitative analysis, and to Chemistry as applied to the Arts and Agriculture. A public examination is held in the Third Term, beginning on the last Wednesday in May; at the close of which prizes are awarded to the two most successful competitors. No extra charge is made for instruction.

Astronomy.

As a means of giving more complete instruction in this Department, and also for the purpose of original observation, an Astronomical Observatory has been erected on the College grounds.

It consists of a central building, with wings on the east and west side. The central building is twenty-seven feet square, and two stories high, surmounted by a revolving tower, twenty feet in diameter.

The great Equatorial in the tower, constructed by Spencer & Eaton, has an object-glass of 13.5 inches in diameter, and a focal length of nearly sixteen feet: it is provided with six positive and six negative eye-pieces, with a ring and a filar micrometer, and, for solar observations, with a prismatic polarizing eye-piece of original construction by Robert A. Tolles. The declination circle, of twenty-four inches, by means of four verniers, reads to four seconds of arc; the hour circle, of fourteen inches, by means of two verniers, reads to two seconds of time. The instrument is mounted upon a granite shaft, nine feet in height, resting upon a pier of solid masonry. A clock work with *Bond's* isodynamic escapement and spring governor, causes the telescope to follow the daily motion of the stars by acting upon long arms attached to the equatorial axis.

The wings are each eighteen feet square; the east room is used as an office for the Director. In the west room is mounted a portable Transit Instrument of 2½ inches aperture, the gift of HORACE D. KELLOGG, Esq., of Bridgewater, and constructed by W. Wurdemann, of Washington, D. C. It has a cast iron folding stand, invented by the maker.

Near the Transit is an Astronomical Clock, constructed by William Bond & Son, Boston, and presented by WM. CURTIS NOYES, Esq., of New York. It is

HAMILTON COLLEGE.

regulated for mean time, and provided with the break-circuit for telegraphic operations. By the side of the Clock is a Chronograph, of Bond's most recent construction, and regulated by the Spring Governor, presented by MICHAEL MOORE, Esq., of Trenton Falls. These instruments have been connected by a telegraphic wire with the nearest station; and the longitude of the Observatory has thus been accurately determined by exchanging star signals with the Harvard College Observatory, at Cambridge, Mass.

In its turn, the Hamilton College Observatory already has become the basis of several longitudes in the State, determined under the auspices of the Regents of the University, at Buffalo, Syracuse, Elmira, and of the longitude of the Detroit Observatory at Ann Arbor, Mich., which latter forms the fundamental point for the longitude of the Lake Survey.

Besides the Observatory possesses a Sidereal Chronometer, constructed by the same makers, with the most recently improved compensation balance: this instrument was the gift of the late Hon. GEORGE UNDERWOOD, of Anburn.

A Morse Telegraphic Apparatus also has been presented by Mr. S. W. CHUBBUCK, of Utica, and an Aneroid Barometer by SIMEON BENJAMIN, Esq., of Elmira.

It is believed that all these instruments, and others with which the Observatory will soon be supplied, will greatly increase the scientific advantages of the College, and furnish additional incentives to astronomical study.

Libraries and Cabinets.

The College and Society Libraries, amounting to 10,000 volumes, are at all times accessible to Students. Geological and Mineralogical Cabinets, and Collections in Natural History, are also connected with the College, embracing the following, viz:

- 1.—9,000 Specimens of Ores and Simple Minerals.
- 2.—2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
- 3.—1,000 Specimens to illustrate the Geology of the United States.
- 4.—600 Specimens of Fossils, mostly from the Silurian Formations of Europe.
- 5.—500 Specimens from the Coal Formations of the United States.
- 6.—250 Specimens from the New Red Sandstone Formation.
- 7.—600 Specimens of Crystallized Minerals from New York localities.
- 8.—2,000 Specimens of Land, Fresh-water, and Marine Shells.
- 9.—300 Specimens in Ornithology, from China.
- 10.—13 Cases of Specimens in Entomology.

The College Grounds.

The Park, in the midst of which the College edifices stand, embraces fifteen acres. This has been laid out in the modern English method, with trees and shrubs scattered over it, singly and in groups, and with carriage-ways and

HAMILTON COLLEGE.

foot-paths winding through its different parts, giving the visitor a view of the entire surface. The trees, deciduous and evergreen, have been arranged chiefly with a view to their landscape effects, though a classification in families has not been wholly lost sight of. A Pinetum has been begun, in which a large number of the conifers, hardy in this climate, may already be found. Among the Elms, Maples, Lindens, Oaks, &c., we have five or six varieties of each species.

In those portions of the ground daily traversed by the Students, plots have been laid off and devoted to shrubs, vines, and flowering plants, some of which are cultivated by the under-graduates.

It is the design of the Trustees and the Faculty to render the Park increasingly attractive from year to year. New trees and plants will be added to the present collection as fast as they can be obtained. And, for the more speedy accomplishment of this end, contributions are invited from the friends of the Institution. It is a pleasure, here, to acknowledge handsome donations already received from various persons, especially those from Mr. CHARLES DOWNING, of Newburgh; Messrs. ELLWANGER & BARRY, of Rochester, and HOVEY & Co., of Boston.

At a late meeting of the Board of Trustees, a vote of thanks was tendered to Prof. ROOT, Rev. A. DELOS GRIDLEY, and JOHN C. HASTINGS, Esq., for their skilful and generous services as Curators of the College Grounds.

Religious Instruction.

Morning and evening Prayers, with reading of the Scriptures, are attended in the College Chapel. Public services are attended in the Chapel, on the Sabbath, when all the Students are required to be present, except such as have permission to attend at other places of worship. On Sabbath and Tuesday evenings there are religious services which all the Students are invited to attend. A Church has been organized on such principles as to embrace members from various Evangelical Denominations. For the promotion of their greatest spiritual good and highest usefulness, it is desirable that all professors of religion coming to the Institution should bring letters and connect themselves with the College Church.

A systematic course of Biblical Instruction has been arranged for the several classes, a statement of which may be found in the General View of the studies of the year.

The Society of Christian Research holds its meetings monthly, when reports are read on the condition of Christian missions in various parts of the world, and questions of religious interest are discussed.

Examinations.

1. Of all the Classes at the close of the First Term.
2. Of all the Classes at the close of the Second Term.
3. Of the Senior Class four weeks previous to Commencement.

HAMILTON COLLEGE.

4. Of the three other Classes the week previous to Commencement.
5. Of Kellogg Prize Competitors, the first Saturday of the Third Term.
6. Of Underwood Prize Competitors, the fifth Wednesday of the Third Term.
7. Of Mathematical Prize Competitors, the eleventh Saturday of the Third Term.

Prizes.

Prizes, in the form of valuable books, are annually awarded to the two Students, in each of the three lower Classes, who exhibit the highest degree of excellence in public Declamation; also to the two in each Class who exhibit the highest degree of excellence in English Composition.

At the close of the present Collegiate year, the following prizes will be distributed, viz :

1. The interest of a Prize Fund of \$500, founded by the late Hon. AARON CLARK, of New York, will be given, in one Prize, to the Student in the Senior Class who excels in *Oratory*.

2. The interest of a Prize Fund of \$500, founded by Hon. J. V. L. PRUYX, LL. D., of Albany, Chancellor of the University of the State of New York, will be given in a Gold Medal, to the Student of the Senior Class who shall write the best Oration on "The Duties of Educated Young Men to the State."

3. The interest of a Prize Fund of \$500, founded by the late Hon. GEORGE UNDERWOOD, of Auburn, will be given, in two Prizes, to members of the Senior Class who excel in *Chemistry*.

4. The interest of a Prize Fund of \$500, founded by HORACE D. KELLOGG, Esq., of Bridgewater, will be given, in two Prizes, to members of the Junior Class who excel in *Classical Studies*.

5. Two Prizes will be given to members of the Sophomore Class who excel in *Mathematics*.

Public Exhibitions.

1. Junior Exhibition, at the close of the Second Term.
2. Clark Prize Exhibition, on the second Wednesday evening in June.
3. Prize Declamation, on the Monday evening preceeding Commencement.
4. Commencement, on the Thursday after the third Wednesday in July.

Terms.

1. From the second Wednesday in September, thirteen weeks.
2. From the first Wednesday in January, thirteen weeks.
3. From the fourth Wednesday in April, to Commencement.

HAMILTON COLLEGE.

Expenses.

Board, from \$2 to \$3 per week.....	\$78 00 to \$117 00	
Fuel and Lights,.....	5 00	" 10 00
Room Rent, \$3 per term,.....	9 00	" 9 00
For Sweeping and other contingencies, \$5 per term,...	15 00	" 15 00
Tuition,.....	36 00	" 36 00
Amount,.....	\$143 00	\$187 00

In addition to the above, any damages voluntarily committed in the community of Students, are charged to the individuals committing them, when known : to the whole body, when not known, under the name of Extra Contingencies.

The above estimate of expenses is, of course, considerably diminished in the case of those Students who take advantage of the resolution of the Board of Trustees, which provides for a remission of their bills for tuition.

A Student admitted to an advanced standing, unless from another College, is charged with a matriculation fee, to the Sophomore Class, \$7 : to the Junior, \$10 : to the Senior, \$12.

Payment of Bills.

It is provided by a resolution of the Board of Trustees :

1. That no Student shall be permitted to enter on a second, or any succeeding term, until he shall have paid, or secured to the satisfaction of the Treasurer, the fees of the preceding Term.
2. That no Student can have an honorable dismissal from this College, or certificate of his previous attendance in it, until all his bills are paid, or satisfactorily secured.
3. That in extreme cases, a Student whose circumstances render it necessary, and who shall present satisfactory testimonials of that fact to the Executive Committee, if he is a worthy member of College and his undergraduate course is completed in this Institution, can have his bills for tuition remitted.

Matriculation.

Students are not considered regular members of College, until a residence of at least three months, has furnished evidence of good moral character.

At the close of the first term after admission, if their conduct has been satisfactory, new Students are allowed to enter their names in the Matriculation Book. The Laws of College provide for the withdrawal of any, who within a specified time fail to prove themselves worthy of matriculation.

Second Degrees.

Graduates of three years' standing, are entitled to the degree of Master of Arts, on application to the President. The fee for the Degree and Diploma is \$5, payable in advance.

Absence from College.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for Students to visit their friends during the Term, except for urgent and unforeseen reasons. The occasional loss of a day cannot fail to have an unfavorable bearing on the intellectual habits and standing of the Student. It is hoped that parents and guardians will concur with the Faculty in their opinion of the inexpediency of granting leave of absence in ordinary cases. During vacations, the College buildings are closed, and it is not thought desirable that Students from abroad should remain in Clinton.

Every omitted recitation must be recited within two weeks after the Student's return to College duties; and no deduction for absence will be made in the Term bills, where the Student returns to the same class which he left.

Members of the Senior Class can not be graduated, unless they have been in attendance during two terms of the Senior year. No Student is permitted to take part in the exercises of Commencement day, who has not spent the third Term of his Senior year in College, and made his preparation on the ground.

Teaching.

Students whose circumstances make it necessary for them to take schools during the winter season, are permitted to be absent from their Classes for that purpose.

The Faculty keep a Register of Graduates wishing engagements to teach, and will aim to nominate suitable candidates in reply to applications for teachers.

Beneficiaries.

Students who are candidates for the Christian Ministry, may receive aid, if their circumstances require it, to the amount of from eighty to one hundred dollars a year, on application to the President.

In addition to this, a few Scholarships have been donated to the College, which yield to their occupants enough to pay the ordinary term-bills of the Treasurer.

Law Department.

REV. SAMUEL WARE FISHER, D. D.,

PRESIDENT.

ELLICOTT EVANS, A. M.,

MAYNARD PROFESSOR OF LAW, HISTORY, CIVIL POLITY AND POLITICAL ECONOMY.

The course of instruction in Law includes the thorough and careful study of the most approved text-books. Among these are Blackstone's and Kent's Commentaries, Parsons on Contracts, Cruise's Digest of the Law of Real Estate, (Greenleaf's edition,) Greenleaf on Evidence, vol. 1st, and the Code of Procedure.

The great object aimed at is to store the mind of the student with the fundamental principles of the Law. This is to be accomplished in such a way that he can give at any time, a full and accurate expression of legal rules. The text-books are to be so mastered that any question may be answered readily and with exactness. Reviews of previous exercises are often repeated, until the student becomes as familiar with the rudiments of Law as with the rudiments of a language. At each exercise every student is examined on the subjects studied, and expected to give the results of the text in his own words.

The Professor connects oral and familiar lectures with each recitation, putting cases to the class, involving the principles of the text, and requiring a solution, and endeavoring in every manner which may suggest itself, to quicken and interest the student by exciting his own mind to continual action. Instead of the fitful and intermittent studies of the law office, pursued often in confusion and amidst other circumstances tending to distract the mind, the student studies law as he does any other science, with a systematic purpose and plan. Experience has proved by its unfailing tests, that on such a basis, underlying the superstructure of a careful practice, sound and accurate lawyers will be formed.

Particular attention is given to the study of the law of real estate. At each exercise, one or more of the students is required to examine points of law, and read before the class an essay, setting forth some legal principle, and the authorities sustaining it, and also from time to time to prepare various conveyances, as well as the legal papers used in the progress of a suit.

HAMILTON COLLEGE.

Moot Courts are held once a week, in which the case is furnished by the Professor, and heard before him as a judge.

Any person of good moral character, who complies with the rules of the department, may join the class. The prescribed course of study for College graduates is one year ; for those not graduated, one year and one-third. After having passed the regular course of study, and the examination prescribed by the rules of the College, the student is entitled to the degree of Bachelor of Laws. No other examination is necessary for admission to the Bar. By the Laws of 1855, chap. 310, every graduate of the Law School is entitled to a certificate to practice as an Attorney and Counsellor of the Supreme Court. The terms of tuition are \$20 per term, or \$60 per year, with a graduation fee of \$5.

Students who do not wish to graduate, can remain any number of terms which they may choose, or study any one of the subjects embraced in the course. The order of studies in the principal subjects is : the Law of Contracts in the fall term ; of Real Estate in the winter term ; and Real Estate completed, Evidence, etc., in the spring term.

The text-books are furnished by the Institution, and loaned to the student without charge, with the exception of Blackstone and Kent.

"Paul before the Areopagus."

REGULATIONS FOR PRIZE COMPOSITION.

1. Any Student of the three lower Classes in actual attendance during the Second Term, has the privilege of writing upon either, or both, of the subjects assigned to the Class of which he is a member; but no one can receive two prizes in a single year.

2. Each Essay must contain not more than thirty-five folios, and must be so written that the MS. will show broad margins, and be suitable for binding: it must be signed with a fictitious name, and this fictitious name superscribed on a sealed note containing the writer's real name.

3. The Essays must be left with the President before 12 o'clock on the first Friday in the Third Term.

4. The Faculty will appoint a Committee of Literary Gentlemen to select the best Essay on each of the subjects assigned to the several Classes.

5. The two successful Essayists, from each Class, will be announced at the close of the Third Term; and books of value will be given as prizes, on Commencement day.

6. A copy of each successful Essay will be preserved in the College Library.

7. The unsuccessful Essays may be had by calling upon the Librarian at the beginning of the next Collegiate year.

5. "'Paradise Lost' and the 'Divine Comedy.'"
6. "The Essentials to Permanent Political Success."

REGULATIONS FOR THE CLARK PRIZE.

1. Any member of the Senior Class, in actual attendance during the Second Term, may write upon either one of the subjects assigned.
2. Each Oration must contain not more than twenty folios; it must be signed with a fictitious name, and this name superscribed on a sealed note containing the author's real name.
3. The Orations must be left with the President, before 12 o'clock on the last Tuesday of the Second Term.
4. The best six Orations will be selected by the Faculty, and the names of the successful competitors will be announced on the second Thursday in May.
5. The Orations will be delivered, under the direction of the Professor of Rhetoric, on the evening of the second Wednesday in June.
6. The Prize will be awarded on Commencement day.
7. A copy of each of the Orations will be kept in the College Library.

SUBJECT FOR THE PRUYN MEDAL ORATION.

"THE DUTIES OF EDUCATED YOUNG MEN TO THE STATE."

REGULATIONS.

1. Any member of the Senior Class, in actual attendance during the Third Term, may write upon the subject assigned.
2. Each Oration must contain not more than fifteen folios: it must be signed with a fictitious name, and this name superscribed upon a sealed note containing the author's real name.
3. The Orations must be left with the President, before 12 o'clock on Tuesday, May 19th.
4. The best Oration will be selected by the Faculty, and the name of the successful competitor announced on Tuesday, May 26th.
5. The Oration will be delivered, and the Medal awarded on Commencement day.
6. A copy of the Oration will be kept in the College Library.

REGULATIONS FOR THE
Eighth Kellogg Prize Examination.

SATURDAY, APRIL 25, 1863.

1. Members of the Junior Class intending to compete at the Kellogg Prize Examination, must make known this intention to the Professor of Greek, on or before the last Saturday in February.

2. The examination will be held in the Philosophical Chamber, commencing at eight o'clock, and closing at one o'clock.

3. Competitors are required to bring with them pens and ink. Paper will be furnished at the examination room.

4. Competitors are not allowed to bring with them any written or printed matter, or to hold any communication with each other. A violation of this rule will vitiate the work of the one so doing.

5. Only one face of each half sheet is to be written upon, the other being left blank. There should also be an inch of margin on the left edge of each sheet.

6. The pages should be numbered at the top, with the Student's name repeated beneath each number.

7. The several portions of the work should likewise be numbered according to the numbers of the printed questions.

8. At half past twelve, notice will be given that competitors may review, correct and finish their work. At one o'clock the papers are to be given up.

9. In estimating the merit of the Student's work, two points will be especially considered:—

(1.) Exactness in rendering; fullness and accuracy of information on the subjects proposed.

(2.) Neatness, elegance and logical arrangement in the exhibition and utterance of knowledge.

10. The kinds of work to be done will be as follows, viz:—

(1.) Translation from and into Greek, Latin and French.

(2.) Analysis of words, including derivation, synonymes, inflection and dialectic changes

(3.) Analysis of sentences, with rules of construction, illustrative quotations, and the answering of questions in history, geography and mythology.

(4.) Analysis of metres, including quantity, rhythms and nomenclature.

(5.) Rules and practice of Greek accentuation.

(6.) Criticism on the style, spirit and subject-matter of the authors quoted from.

Society of Alumni.

This Society is composed of graduates from the College, and those upon whom it has conferred honorary or *ad eundem* degrees. Among its objects is the encouragement of Science and Letters, more especially in their connection with Hamilton College. It has the use of an alcove in the College Library, to which donations are solicited of books, pamphlets and papers, whose authors are graduates from Hamilton. It seeks also the promotion of friendly feeling and sympathy among its living members, and the rendering of fit honor to the departed.

Hamilton College.

Admission.

It is required that the candidates for admission to the Freshman Class, should not be less than fourteen years of age, with a corresponding increase for an advanced standing ; that they furnish evidence of good moral character ; and, if from another College, a regular dismissal ; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

Preparatory Studies.

1. Geography and Arithmetic.
2. English, Latin, and Greek Grammar, including Prosody and correct accentuation in reading.
3. Sallust, or Cæsar's Commentaries.
4. Virgil's *Æneid*.
5. Cicero's Select Orations.
6. Prose of the Greek Reader.
7. First Book of Xenophon's *Anabasis*.
8. Algebra to Quadratic Equations.

The ENTRANCE EXAMINATIONS are held on the Monday and Tuesday preceding Commencement, and on the last day of the ensuing vacation.

Course of Instruction.

The whole course of instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning, and vigorous application ; and at the same time, furnish it with the great leading facts and principles in Literature, Science, and the Arts.

Rhetorical Exercises.

Weekly exercises in Composition and Forensic Disputation take place in the several Classes. Besides these, on Wednesday and Saturday of each week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, and of original Essays and Orations under the direction and criticism of the Professor of Rhetoric.

Chemistry.

A building has been erected, for the better accommodation of Students in this Department. It is intended that superior facilities shall be furnished for the acquisition of a practical knowledge of the science of Chemistry. Much attention will be given to Analysis, and also to Chemistry as applied to the Arts and Agriculture.

At the commencement of the Second Term a volunteer class is formed, with special reference to those who wish to improve their knowledge of Chemical Analysis. The time is devoted to qualitative and quantitative analysis, and to Chemistry as applied to the Arts and Agriculture. A public examination is held in the Third Term, at the close of which prizes are awarded to the two most successful competitors. No extra charge is made for instruction.

Astronomy.

As a means of giving more complete instruction in this Department, and also for the purpose of original observation, an Astronomical Observatory has been erected on the College grounds.

It consists of a central building, with wings on the east and west side. The central building is twenty-seven feet square, and two stories high, surmounted by a revolving tower, twenty feet in diameter.

The great Equatorial in the tower, constructed by Spencer & Eaton, has an object-glass of 13.5 inches in diameter, and a focal length of nearly sixteen feet : it is provided with six positive and six negative eye-pieces, with a ring and a filar micrometer, and, for solar observations, with a prismatic polarizing eye-piece of original construction by Robert A. Tolles. The declination circle, of twenty-four inches, by means of four verniers, reads to four seconds of arc ; the hour circle, of fourteen inches, by means of two verniers, reads to two seconds of time. The instrument is mounted upon a granite shaft.

nine feet in height, resting upon a pier of solid masonry. A clock work with *Bond's* isodynamic escapement and spring governor, causes the telescope to follow the daily motion of the stars by acting upon long arms attached to the equatorial axis.

The wings are each eighteen feet square ; the east room is used as an office for the Director. In the west room is mounted a portable Transit Instrument of $2\frac{1}{2}$ inches aperture, the gift of HORACE D KELLOGG, Esq., of Bridgewater, and constructed by W. Wurdemann, of Washington, D. C. It has a cast iron folding stand, invented by the maker.

Near the Transit is an Astronomical Clock, constructed by William Bond & Son, Boston, and presented by WM. CURTIS NOYES, Esq., of New York. It is regulated for mean time, and provided with the break-circuit for telegraphic operations. By the side of the Clock is a Chronograph, of Bond's most recent construction, and regulated by the Spring Governor, presented by MICHAEL MOORE, Esq., of Trenton Falls. These instruments have been connected by a telegraphic wire with the nearest station ; and the longitude of the Observatory has thus been accurately determined by exchanging star signals with the Harvard College Observatory, at Cambridge, Mass.

In its turn, the Hamilton College Observatory already has become the basis of several longitudes in the State, determined under the auspices of the Regents of the University, at Buffalo, Syracuse, Elmira, and of the longitude of the Detroit Observatory at Ann Arbor, Mich., which latter forms the fundamental point for the longitude of the Lake Survey.

Besides, the Observatory possesses a Sidereal Chronometer, constructed by the same makers, with the most recently improved compensation balance ; this instrument was the gift of the late Hon. GEORGE UNDERWOOD, of Auburn.

A Morse Telegraphic Apparatus also has been presented by Mr. S. W. CHUBBUCK, of Utica, and an Aneroid Barometer by SIMEON BENJAMIN, Esq., of Elmira.

It is believed that all these instruments, and others with which the Observatory will soon be supplied, will greatly increase the scientific advantages of the College, and furnish additional incentives to astronomical study.

Libraries and Cabinets.

The College and Society Libraries, amounting to 10,000 volumes, are at all times accessible to Students. Geological and Mineralogical Cabinets, and Collections in Natural History, are also connected with the College, embracing the following, viz :

- 1—9,000 Specimens of Ores and Simple Minerals.
- 2—2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
- 3—1,000 Specimens to illustrate the Geology of the United States.
- 4—600 Specimens of Fossils, mostly from the Silurian Formations of Europe.

HAMILTON COLLEGE.

- 5 - 500 Specimens from the Coal Formations of the United States.
- 6—250 Specimens from the New Red Sandstone Formation.
- 7—600 Specimens of Crystallized Minerals from New York localities.
- 8—2,000 Specimens of Land, Fresh-water, and Marine Shells.
- 9—399 Specimens in Ornithology, from China.
- 10—13 Cases of Specimens in Entomology.

Sartwell Herbarium.

Through the liberality of HAMILTON WHITE, Esq., of Syracuse, the College Collections in Natural History have been recently enriched by the HERBARIUM collected by DR. H. P. SARTWELL, of Penn Yan, and well-known in scientific circles as a very extensive and valuable exhibition of our North American Flora. This HERBARIUM is the result of fifty years of botanical study, research and correspondence. It contains eight thousand samples of plants, all skilfully cured, accurately labelled, and conveniently classified in sixty-two handsome volumes. Among the more unique or useful specimens are 451 *Mosses*, 225 *Lichens*, 341 *Sea-Weeds*, 600 *Fungi*, 575 *Ferns*, 314 *Grasses*, 200 *Ericaceae*.

The College Grounds.

The Park, in the midst of which the College edifices stand, embraces fifteen acres. This has been laid out in the modern English method, with trees and shrubs scattered over it, singly and in groups, and with carriage-ways and foot-paths winding through its different parts, giving the visitor a view of the entire surface. The trees, deciduous and evergreen, have been arranged chiefly with a view to their landscape effects, though a classification in families has not been wholly lost sight of. A Pinetum has been begun, in which a large number of the conifers, hardy in this climate, may already be found. Among the Elms, Maples, Lindens, Oaks, &c., we have five or six varieties of each species.

In those portions of the ground daily traversed by the Students, plots have been laid off and devoted to shrubs, vines, and flowering plants, some of which are cultivated by the under-graduates.

It is the design of the Trustees and the Faculty to render the Park increasingly attractive from year to year. New trees and plants will be added to the present collection as fast as they can be obtained. And, for the more speedy accomplishment of this end, contributions are invited from the friends of the Institution. It is a pleasure, here, to acknowledge handsome donations already received from various persons, especially those from Mr. CHARLES DOWNING, of Newburg; HENRY W. SARGENT, Esq., of Fishkill; MESSRS. ELLWANGER & BARRY, of Rochester; and MESSRS. HOVEY & Co. of Boston.

At a late meeting of the Board of Trustees, a vote of thanks was tendered to Prof. ROOT, Rev. A. DELOS GRIDLEY, and JOHN C. HASTINGS, Esq., for their skilful and generous services as Curators of the College Grounds.

Religious Instruction.

Morning and evening Prayers, with reading of the Scriptures, are attended in the College Chapel. Public services are attended in the Chapel, on the Sabbath, when all the Students are required to be present, except such as have permission to attend at other places of worship. On Sabbath and Tuesday evenings there are religious services which all the Students are invited to attend. A Church has been organized on such principles as to embrace members from various Evangelical Denominations. For the promotion of their greatest spiritual good and highest usefulness, it is desirable that all professors of religion coming to the Institution should bring letters and connect themselves with the College Church.

A systematic course of Biblical Instruction has been arranged for the several classes, a statement of which may be found in the General View of the studies of the year.

The Society of Christian Research holds its meetings monthly, when reports are read on the condition of Christian missions in various parts of the world, and questions of religious interest are discussed.

Examinations.

1. Of all the Classes at the close of the First Term.
2. Of all the Classes at the close of the Second Term.
3. Of the Senior Class four weeks previous to Commencement.
4. Of the three other Classes the week previous to Commencement.
5. Of Kellogg Prize Competitors, the first Saturday of the Third Term.
6. Of Underwood Prize Competitors, the fifth Wednesday of the Third Term.
7. Of Mathematical Prize Competitors, the eleventh Saturday of the Third Term.

Prizes.

Prizes, in the form of valuable books, are annually awarded to the two Students, in each of the three lower Classes, who exhibit the highest degree of excellence in public Declamation; also to the two in each Class who exhibit the highest degree of excellence in English Composition.

At the close of the present Collegiate year, the following prizes will be distributed, viz:

1. The interest of a Prize Fund of \$500, founded by the late Hon. AARON CLARK, of New York, will be given, in one Prize, to the student of the Senior Class who excels in *Oratory*.

HAMILTON COLLEGE.

2. The interest of a Prize Fund of \$500, founded by Hon. J. V. L. PRUYN, LL. D., of Albany, Chancellor of the University of the State of New York, will be given in a Gold Medal, to any Student of the Senior Class, except the successful competitor for the Head Prize, who shall write the best Oration on "The Duties of Educated Young Men to the State."

3. The interest of a Prize Fund of \$500, founded by FRANKLIN H. HEAD, Esq., of Kenosha, Wis., will be given to the Student of the Senior Class, who shall write the best oration on "The Character and Statesmanship of Alexander Hamilton."

4. The interest of a Prize Fund of \$500, founded by the late Hon. GEORGE UNDERWOOD, of Auburn, will be given, in two Prizes, to members of the Senior Class who excel in *Chemistry*.

5. The interest of a Prize Fund of \$500, founded by HORACE D. KELLOGG, Esq., of Bridgewater, will be given in two Prizes, to members of the Junior Class who excel in *Classical Studies*.

6. Two Prizes will be given to members of the Sophomore Class who excel in *Mathematics*.

Public Exhibitions.

1. Junior Exhibition, at the close of the Second Term.
2. Clark Prize Exhibition, on the second Wednesday evening in June.
3. Prize Declamation, on the Monday evening preceding Commencement.
4. Commencement, on the Thursday after the third Wednesday in July.

Terms.

1. From the second Wednesday in September, thirteen weeks.
2. From the first Wednesday in January, thirteen weeks.
3. From the fourth Wednesday in April to Commencement.

HAMILTON COLLEGE.

In addition to the preceding, any damages voluntarily committed in the community of Students, are charged to the individuals committing them, when known : to the whole body, when not known, under the name of Extra Contingencies.

The preceding estimate of expenses is, of course, considerably diminished in the case of those Students who take advantage of the resolution of the Board of Trustees, which provides for a remission of their bills for tuition.

A Student admitted to an advanced standing, unless from another College, is charged with a matriculation fee, to the Sophomore Class, \$7 : to the Junior, \$10 : to the Senior, \$12.

Payment of Bills.

It is provided by a resolution of the Board of Trustees :

1. That no Student shall be permitted to enter on a second, or any succeeding term, until he shall have paid, or secured to the satisfaction of the Treasurer, the fees of the preceding Term.

2. That no Student can have an honorable dismissal from this College, or certificate of his previous attendance in it, until all his bills are paid, or satisfactorily secured.

3. That in extreme cases, a Student whose circumstances render it necessary, and who shall present satisfactory testimonials of that fact to the Executive Committee, if he is a worthy member of College and his undergraduate course is completed in this Institution, can have his bills for tuition remitted.

Matriculation.

Students are not considered regular members of College, until a residence of at least three months has furnished evidence of good moral character.

At the close of the first term after admission, if their conduct has been satisfactory, new Students are allowed to enter their names in the Matriculation Book. The Laws of College provide for the withdrawal of any, who within a specified time fail to prove themselves worthy of matriculation.

Second Degrees.

Graduates of three years' standing are entitled to the degree of Master of Arts, on application to the President. The fee for the Degree and Diploma is \$5, payable in advance.

Absence from College.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for Students to visit their friends during the Term, except for urgent and unforeseen reasons. The occasional loss of a day cannot fail to have an unfavorable bearing on the intellectual habits and standing of the Student. It is hoped that parents and guardians will concur with the Faculty in their opinion of the inexpediency of granting leave of absence in ordinary cases. During vacations, the College buildings are closed, and it is not thought desirable that Students from abroad should remain in Clinton.

Every omitted recitation must be recited within two weeks after the Student's return to College duties; and no deduction for absence will be made in the Term bills, where the Student returns to the same class which he left.

Members of the Senior Class can not be graduated, unless they have been in attendance during two terms of the Senior year. No Student is permitted to take part in the exercises of Commencement day, who has not spent the third Term of his Senior year in College, and made his preparation also, in College.

Teaching.

Students whose circumstances make it necessary for them to take schools during the winter season, are permitted to be absent from their Classes for that purpose.

The Faculty keep a Register of Graduates wishing engagements to teach, and will aim to nominate suitable candidates in reply to applications for teachers.

Beneficiaries.

Students who are candidates for the Christian Ministry, may receive aid, if their circumstances require it, to the amount of from eighty to one hundred dollars a year, on application to the President.

In addition to this, a few Scholarships have been donated to the College, which yield to their occupants enough to pay the ordinary term-bills of the Treasurer.

Law Department.

ELLICOTT EVANS, LL. D.,
MAYNARD PROFESSOR OF LAW, HISTORY, CIVIL POLITY AND POLITICAL ECONOMY.

The course of instruction in Law includes the thorough and careful study of the most approved text-books. Among these are Blackstone's and Kent's Commentaries, Parsons on Contracts, Washburn's Law of Real Estate, Greenleaf on Evidence, Vol. 1st, and the Code of Procedure.

The great object aimed at is to store the mind of the student with the fundamental principles of the Law. This is to be accomplished in such a way that he can give, at any time, a full and accurate expression of legal rules. The text-books are to be so mastered that any question may be answered readily and with exactness. Reviews of previous exercises are often repeated, until the student becomes as familiar with the rudiments of Law as with the rudiments of a language. At each exercise, every student is examined on the subjects studied, and expected to give the results of the text in his own words.

The Professor connects oral and familiar lectures with each recitation, putting cases to the class, involving the principles of the text, and requiring a solution, and endeavoring in every manner which may suggest itself, to quicken and interest the student by exciting his own mind to continual action. Instead of the fitful and intermittent studies of the law office, pursued often in confusion and amidst other circumstances tending to distract the mind, the student studies law as he does any other science, with a systematic purpose and plan. Experience has proved by its unfailing tests, that on such a basis, underlying the superstructure of a careful practice, sound and accurate lawyers will be formed.

Particular attention is given to the study of the law of real estate. At each exercise, one or more of the students is required to examine points of law, and read before the class an essay, setting forth some legal principle, and the authorities sustaining it, and also from time to time to prepare various conveyances, as well as the legal papers used in the progress of a suit.

Moot Courts are held once a week, in which the case is furnished by the Professor, and heard before him as a judge.

Any person of good moral character, who complies with the rules of the department, may join the class. The prescribed course of study for College graduates is one year; for those not graduated, one year and one-third. After having passed the regular course of study, and the examination prescribed by the rules of the College, the student is entitled to the degree of Bachelor of Laws. No other examination is necessary for admission to the Bar. By the Laws of 1855, chap. 310, every graduate of the Law School is entitled to a certificate to practice as an Attorney and Counsellor of the Supreme Court. The terms of tuition are \$20 per term, or \$60 per year, with a graduation fee of \$5.

Students who do not wish to graduate, can remain any number of terms which they may choose, or study any one of the subjects embraced in the course. The order of studies in the principal subjects is: the Law of Contracts in the fall term; of Real Estate in the winter term; and Real Estate completed, Evidence, etc., in the spring term.

The text-books are furnished by the Institution, and loaned to the student without charge, with the exception of Blackstone and Kent.

REGULATIONS FOR THE
Ninth Kellogg Prize Examination.

SATURDAY, APRIL 30, 1864.

1. Members of the Junior Class intending to compete at the Kellogg Prize Examination, must make known this intention to the Professor of Greek, on or before the last Saturday in February.

2. The examination will be held in the Philosophical Chamber, commencing at eight o'clock, and closing at one o'clock.

3. Competitors are required to bring with them pens and ink. Paper will be furnished at the examination room.

4. Competitors are not allowed to bring with them any written or printed matter, or to hold any communication with each other. A violation of this rule will vitiate the work of the one so doing.

5. Only one face of each half sheet is to be written upon, the other being left blank. There should also be an inch of margin on the left edge of each sheet.

6. The pages should be numbered at the top, with the Student's name repeated beneath each number.

7. The several portions of the work should likewise be numbered according to the numbers of the printed questions.

8. At half past twelve, notice will be given that competitors may review, correct, and finish their work. At one o'clock the papers are to be given up.

9. In estimating the merit of the Student's work, two points will be especially considered :—

(1.) Exactness in rendering ; fullness and accuracy of information on the subjects proposed.

(2.) Neatness, elegance, and logical arrangement in the exhibition and utterance of knowledge.

10. The kind of work to be done will be as follows, viz :—

(1.) Translation from and into Greek, Latin, and French.

(2.) Analysis of words, including derivation, synonymes, inflection and dialectic changes.

(3.) Analysis of sentences, with rules of construction, illustrative quotations, and the answering of questions in history, geography, and mythology.

(4.) Analysis of metres, including quantity, rhythms, and nomenclature.

(5.) Rules and practice of Greek accentuation.

(6.) Criticism on the style, spirit, and subject-matter of the authors quoted from.

HAMILTON COLLEGE.

Admission.

It is required that the candidates for admission to the Freshman Class, should not be less than fourteen years of age, with a corresponding increase for an advanced standing; that they furnish evidence of good moral character; and, if from another College, a regular dismissal; and that they sustain a satisfactory examination on the PREPARATORY STUDIES, or for an advanced class, on the several studies to which the class they propose to enter has attended. None can be admitted into the Senior Class after the winter vacation.

Preparatory Studies.

1. Geography and Arithmetic.
2. English, Latin, and Greek Grammar, including Prosody and correct accentuation in reading.
3. Sallust, or Cæsar's Commentaries.
4. Virgil's *Æneid*.
5. Cicero's Select Orations.
6. Prose of the Greek Reader.
7. First Book of Xenophon's *Anabasis*.
8. Algebra to Quadratic Equations.

The ENTRANCE EXAMINATIONS are held on the Monday and Tuesday preceding Commencement, and on the last day of the ensuing vacation.

Course of Instruction.

The whole course of instruction occupies four years, and the Students, in all the classes, are usually required to attend three exercises on each day.

The object of the course is to form the mind to habits of accurate discrimination, close reasoning, and vigorous application; and at the same time, furnish it with the great leading facts and principles in Literature, Science, and the Arts.

Rhetorical Exercises.

Weekly exercises in Composition and Forensic Disputation take place in the several Classes. Besides these, on Wednesday and Saturday of each week, all the Students are required to attend public exhibitions in the Chapel, of Declamation, and of original Essays and Orations under the direction and criticism of the Professor of Rhetoric.

Chemistry.

A building has been erected, for the better accommodation of Students in this Department. It is intended that superior facilities shall be furnished for the acquisition of a practical knowledge of the science of Chemistry. Much attention will be given to Analysis, and also to Chemistry as applied to the Arts and Agriculture.

At the commencement of the Second Term a volunteer class is formed, with special reference to those who wish to improve their knowledge of Chemical Analysis. The time is devoted to qualitative and quantitative analysis, and to Chemistry as applied to the Arts and Agriculture. A public examination is held in the Third Term, at the close of which prizes are awarded to the two most successful competitors. No extra charge is made for instruction.

Astronomy.

As a means of giving more complete instruction in this Department, and also for the purpose of original observation, an Astronomical Observatory has been erected on the College grounds.

It consists of a central building, with wings on the east and west side. The central building is twenty-seven feet square, and two stories high, surmounted by a revolving tower, twenty feet in diameter.

The great Equatorial in the tower, constructed by Spencer & Eaton, has an object-glass of 13.5 inches in diameter, and a focal length of nearly sixteen feet: it is provided with six positive and six negative eye-pieces, with a ring and a filar micrometer, and for solar observations, with a prismatic polarizing eye-piece of original construction by Robert A. Tolles. The declination circle, of twenty-four inches, by means of four verniers, reads to four seconds of arc: the hour circle, of fourteen inches, by means of two verniers, reads to two seconds of time. The instrument is mounted upon a granite shaft, nine feet in height, resting upon a pier of solid masonry. A clock work with *Boul's* isodynamic escapement and spring governor, causes the telescope to

follow the daily motion of the stars by acting upon long arms attached to the equatorial axis.

The wings are each eighteen feet square: the east room is used as an office for the Director. In the west room is mounted a portable Transit Instrument of $2\frac{1}{2}$ inches aperture, the gift of HORACE D. KELLOGG, Esq., of Bridgewater, and constructed by W. Wurdemann, of Washington, D. C. It has a cast iron folding stand, invented by the maker.

Near the Transit is an Astronomical Clock, constructed by William Bond & Son, Boston, and presented by WM. CURTIS NOYES, Esq., of New York. It is regulated for mean time, and provided with the break-circuit for telegraphic operations. By the side of the Clock is a Chronograph of Bond's most recent construction, and regulated by the Spring Governor, presented by MICHAEL MOORE, Esq., of Trenton Falls. These instruments have been connected by a telegraphic wire with the nearest station; and the longitude of the Observatory has thus been accurately determined by exchanging star signals with the Harvard College Observatory, at Cambridge, Mass.

In its turn, the Hamilton College Observatory already has become the basis of several longitudes in the State, determined under the auspices of the Regents of the University, at Buffalo, Syracuse, Elmira, Ogdensburg, and of the longitude of the Detroit Observatory at Ann Arbor, Mich., which latter forms the fundamental point for the longitude of the Lake Survey.

Besides, the Observatory possesses a Sidereal Chronometer, constructed by the same makers, with the most recently improved compensation balance: this instrument was the gift of the late Hon. GEORGE UNDERWOOD, of Auburn.

A Morse Telegraphic Apparatus also has been presented by Mr. S. W. CHUBBUCK, of Utica, and an Aneroid Barometer by SIMEON BENJAMIN, Esq., of Elmira.

It is believed that all these instruments, and others with which the Observatory will soon be supplied, will greatly increase the scientific advantages of the College, and furnish additional incentives to astronomical study.

The Cabinets.

Geological and Mineralogical Cabinets, and Collections in Natural History, are also connected with the College, embracing the following, viz:

- 1—9,000 Specimens of Ores and Simple Minerals.
- 2—2,500 Specimens of Fossils and Rocks to illustrate the Geology of New York.
- 3—1,000 Specimens to illustrate the Geology of the United States.
- 4—600 Specimens of Fossils, mostly from the Silurian Formations of Europe.
- 5—500 Specimens from the Coal formations of the United States.
- 6—250 Specimens from the New Red Sandstone Formation.
- 7—600 Specimens of Crystallized Minerals from New York localities.
- 8—2,000 Specimens of Land, Fresh-water, and Marine Shells.
- 9—300 Specimens in Ornithology, from China.
- 10—13 Cases of Specimens in Entomology.

The Libraries.

The College and Society Libraries, amounting to 12,000 volumes, are at all times accessible to students.

A few gentlemen in the city of New York have recently presented to the College, the private library of the late Professor EDWARD ROBINSON, of Union Theological Seminary. It consists of 1420 volumes, and about 100 valuable maps, and furnishes complete apparatus for the study of Biblical Exegesis and Scripture Geography.

Sartwell Herbarium.

Through the liberality of HAMILTON WHITE, Esq., of Syracuse, the College Collections in Natural History have been recently enriched by the HERBARIUM collected by Dr. H. P. SARTWELL, of Penn Yan, and well-known in scientific circles as a very extensive and valuable exhibition of our North American Flora. This HERBARIUM is the result of fifty years of botanical study, research and correspondence. It contains eight thousand samples of plants, all skilfully cured, accurately labelled, and conveniently classified in sixty-two handsome volumes. Among the more unique or useful specimens are 451 *Mosses*, 225 *Lichens*, 341 *Sea-Weeds*, 600 *Fungi*, 575 *Ferns*, 314 *Grasses*, 200 *Ericaceae*.

The College Grounds.

The Park, in the midst of which the College edifices stand, embraces fifteen acres. This has been laid out in the modern English method, with trees and shrubs scattered over it, singly and in groups, and with carriage-ways and foot-paths winding through its different parts, giving the visitor a view of the entire surface. The trees, deciduous and evergreen, have been arranged chiefly with a view to their landscape effects, though a classification in families has not been wholly lost sight of. A Pinetum has been begun, in which a large number of the conifers, hardy in this climate, may already be found. Among the Elms, Maples, Lindens, Oaks, &c., we have five or six varieties of each species.

In those portions of the ground daily traversed by the students, plots have been laid off and devoted to shrubs, vines, and flowering plants, some of which are cultivated by the under-graduates.

It is the design of the Trustees and the Faculty to render the Park increasingly attractive from year to year. New trees and plants will be added to the present collection as fast as they can be obtained. And, for the more speedy accomplishment of this end, contributions are invited from the friends of the Institution. It is a pleasure, here, to acknowledge handsome donations already received from various persons, especially those from Mr. CHARLES DOWNING, of Newburg; HENRY W. SARGENT, Esq., of Fishkill;

MESSRS. ELLWANGER & BARRY, of Rochester; and MESSRS. HOVEY & Co., of Boston.

At a late meeting of the Board of Trustees, a vote of thanks was tendered to Prof. ROOT, Rev. A. D. GRIDLEY, and JOHN C. HASTINGS, Esq., for their skilful and generous services as Curators of the College Grounds.

Religious Instruction.

Morning and Evening Prayers, with reading of the Scriptures, are attended in the College Chapel. Public services are attended in the Chapel, on the Sabbath, when all the students are required to be present, except such as have permission to attend at other places of worship. On Sabbath and Tuesday evenings there are religious services which all the students are invited to attend. A Church has been organized on such principles as to embrace members from various Evangelical Denominations. For the promotion of their greatest spiritual good and highest usefulness, it is desirable that all professors of religion coming to the Institution should bring letters and connect themselves with the College Church.

A systematic course of Biblical Instruction has been arranged for the several classes, a statement of which may be found in the General View of the studies of the year.

The Society of Christian Research holds its meetings monthly, when reports are read on the condition of Christian missions in various parts of the world, and questions of religious interest are discussed.

Examinations.

1. Of all the Classes at the close of the First Term.
2. Of all the Classes at the close of the Second Term.
3. Of the Senior Class four weeks previous to Commencement.
4. Of the three other Classes the week previous to commencement.
5. Of Kellogg Prize Competitors, the first Saturday of the Third Term.
6. Of Underwood Prize Competitors, the fifth Wednesday of the Third Term.
7. Of Mathematical Prize Competitors, the eleventh Saturday of the Third Term.

Prizes.

Prizes, in the form of valuable books, are annually awarded to the two students, in each of the three lower Classes, who exhibit the highest degree of excellence in public Declamation: also to the two in each Class who exhibit the highest degree of excellence in English Composition.

At the close of the present Collegiate year, the following prizes will be distributed, viz:

HAMILTON COLLEGE.

1. The interest of a Prize Fund of \$500, founded by the late HON. AARON CLARK, of New York, will be given, in one Prize, to the student of the Senior Class who excels in *Oratory*.

2. The interest of a Prize Fund of \$500, founded by Hon J. V. L. PRUYN, LL. D., of Albany, Chancellor of the University of the State of New York, will be given in a Gold Medal, to any student of the Senior Class, except the successful competitor for the Head Prize, who shall write the best Oration on "The Duties of the Educated Young Men of New York to their own Commonwealth."

3. The interest of a Prize Fund of \$500, founded by FRANKLIN H. HEAD, Esq., of Kenosha, Wis., will be given to the student of the Senior Class who will write the best oration on "Alexander Hamilton as a Financier."

4. The interest of a Prize Fund of \$500, founded by the late HON. GEORGE UNDERWOOD, of Auburn, will be given in two Prizes, to members of the Senior Class who excel in *Chemistry*.

5. The interest of a Prize Fund of \$500, founded by HORACE D. KELLOGG, Esq., of Bridgewater, will be given, in two Prizes, to members of the Junior Class who excel in *Classical Studies*.

6. The interest of a Prize Fund of \$500, founded by MARTIN HAWLEY, Esq., of Baltimore, Md., will be given, in Silver Medals, to members of the Junior Class who excel in *Classical Studies*.

7. Two Prizes will be given to members of the Sophomore Class who excel in *Mathematics*.

Public Exhibitions.

1. Junior Exhibition, at the close of the Second Term.
2. Clark Prize Exhibition, on the second Wednesday evening in June.
3. Prize Declamation, on the Monday evening preceding Commencement.
4. Commencement, on the Thursday after the third Wednesday in July.

Terms.

1. From the second Wednesday in September, thirteen weeks.
2. From the first Wednesday in January, thirteen weeks.
3. From the fourth Wednesday in April to Commencement.

HAMILTON COLLEGE.

In addition to the preceding, any damages voluntarily committed in the community of students, are charged to the individuals or classes committing them, when known: to the whole body of students when not known, under the name of Extra Contingent Expenses.

The preceding estimate of expenses is, of course, considerably diminished in the case of those students who take advantage of the resolution of the Board of Trustees, which provides for a remission of their bills for tuition.

A student admitted to an advanced standing, unless from another College, is charged with a matriculation fee, to the Sophomore Class, \$7: to the Junior, \$10: to the Senior, \$12.

Payment of Bills.

It is provided by a resolution of the Board of Trustees:

1. That no student shall be permitted to enter on a second, or any succeeding term, until he shall have paid, or secured to the satisfaction of the Treasurer, the fees of the preceding Term.
2. That no student can have an honorable dismissal from this College, or certificate of his previous attendance in it, until all his bills are paid, or satisfactorily secured.
3. That in extreme cases, a student whose circumstances render it necessary, and who shall present satisfactory testimonials of that fact to the Executive Committee, if he is a worthy member of College and his undergraduate course is completed in this Institution, can have his bills for tuition remitted.

Matriculation.

Students are not considered regular members of College, until a residence of at least three months has furnished evidence of a good moral character.

At the close of the first term after admission, if their conduct has been satisfactory, new students are allowed to enter their names in the Matriculation Book. The Laws of College provide for the withdrawal of any, who within a specified time fail to prove themselves worthy of matriculation.

Second Degrees.

Graduates of three years' standing are entitled to the degree of Master of Arts, on application to the President. The fee for the Degree and Diploma is \$5, payable in advance.

Absence from College.

The portion of the year allotted to vacations is so great as to render it quite unnecessary for students to visit their friends during the Term, except for urgent and unforeseen reasons. The occasional loss of a day cannot fail to have an unfavorable bearing on the intellectual habits and standing of the student. It is hoped that parents and guardians will concur with the Faculty in their opinion of the inexpediency of granting leave of absence in ordinary cases. During vacations, the College buildings are closed; and it is not thought desirable that students from abroad should remain in Clinton.

Every omitted recitation must be recited within two weeks after the student's return to College duties; and no deduction for absence will be made in the Term bills, where the student returns to the same class which he left.

Members of the Senior Class can not be graduated, unless they have been in attendance during two terms of the Senior year. No student is permitted to take part in the exercises of Commencement day, who has not spent the third Term of his Senior year in College, and made his preparation, also, in College.

Teaching.

Students whose circumstances make it necessary for them to take schools during the winter season, are permitted to be absent from their Classes for that purpose.

The Faculty keep a Register of Graduates wishing engagements to teach, and will aim to nominate suitable candidates in reply to applications for teachers.

Beneficiaries.

Students who are candidates for the Christian Ministry, may receive aid, if their circumstances require it, to the amount of from one hundred to one hundred and twenty dollars a year, by placing themselves under the care of either Branch of the Presbyterian Church, or under that of the American Education Society.

In addition to this, a few Scholarships have been donated to the College, which yield to their occupants enough to pay the ordinary term-bills of the Treasurer.

Law Department.

REV. SAMUEL WARE FISHER, D. D.,

PRESIDENT.

ELLCOTT EVANS, LL. D.,

MAYNARD PROFESSOR OF LAW, HISTORY, CIVIL POLITY AND POLITICAL ECONOMY.

The course of instruction in Law includes the thorough and careful study of the most approved text-books. Among these are Blackstone's and Kent's Commentaries, Parsons on Contracts, Washburn's Law of Real Estate, Greenleaf on Evidence, Vol. 1st, and the Code of Procedure.

The great object aimed at is to store the mind of the student with the fundamental principles of the Law. This is to be accomplished in such a way that he can give, at any time, a full and accurate expression of legal rules. The text-books are to be so mastered that any question may be answered readily and with exactness. Reviews of previous exercises are often repeated, until the student becomes as familiar with the rudiments of Law as with the rudiments of a language. At each exercise, every student is examined on the subjects studied, and expected to give the results of the text in his own words.

The Professor connects oral and familiar lectures with each recitation, putting cases to the class, involving the principles of the text, and requiring a solution, and endeavoring in every manner which may suggest itself, to quicken and interest the student by exciting his own mind to continual action. Instead of the fitful and intermittent studies of the law office, pursued often in confusion and amidst other circumstances tending to distract the mind, the student studies law as he does any other science, with a systematic purpose and plan. Experience has proved by its unfailing tests, that on such a basis, underlying the superstructure of a careful practice, sound and accurate lawyers will be formed.

Particular attention is given to the study of the law of real estate. At each exercise, one or more of the students is required to examine points of law, and read before the class an essay, setting forth some legal principle, and the authorities sustaining it, and also from time to time to prepare various conveyances, as well as the legal papers used in the progress of a suit.

HAMILTON COLLEGE.

Moot Courts are held once a week, in which the case is furnished by the Professor, and heard before him as a judge.

Any person of good moral character, who complies with the rules of the department, may join the class. The prescribed course of study for College graduates is one year; for those not graduated, one year and one third. After having passed the regular course of study, and the examination prescribed by the rules of the College, the student is entitled to the degree of Bachelor of Laws. No other examination is necessary for admission to the Bar. By the Laws of 1855, chap. 310, every graduate of the Law School is entitled to a certificate to practice as an Attorney and Counsellor of the Supreme Court. The terms of tuition are \$20 per term, or \$60 per year, with a graduation fee of \$5.

Students who do not wish to graduate, can remain any number of terms which they may choose, or study any one of the subjects embraced in the course. The order of studies in the principal subjects is: the Law of Contracts in the fall term; of Real Estate in the winter term; of Real Estate completed, Evidence, etc., in the spring term.

The text-books are furnished by the Institution, and loaned to the student without charge, with the exception of Blackstone and Kent.

REGULATIONS FOR THE
Tenth Kellogg Prize Examination,

SATURDAY, APRIL 29, 1865.

1. Members of the Junior Class intending to compete at the Kellogg Prize Examination, must make known this intention to the Professor of Greek, on or before the last Saturday in February.

2. The examination will be held in the Philosophical Chamber, commencing at eight o'clock, and closing at one o'clock.

3. Competitors are required to bring with them pens and ink. Paper will be furnished at the examination room.

4. Competitors are not allowed to bring with them any written or printed matter, or to hold any communication with each other. A violation of this rule will vitiate the work of the one so doing.

5. Only one face of each half sheet is to be written upon, the other being left blank. There should also be an inch of margin on the left edge of each sheet.

6. The pages should be numbered at the top, with the student's name repeated beneath each number.

7. The several portions of the work should likewise be numbered according to the numbers of the printed questions.

8. At half past twelve, notice will be given that competitors may review, correct, and finish their work. At one o'clock the papers are to be given up.

9. In estimating the merit of the student's work, two points will be especially considered :—

(1.) Exactness in rendering ; fullness and accuracy of information on the subjects proposed.

(2.) Neatness, elegance, and logical arrangement in the exhibition and utterance of knowledge.

10. The kind of work to be done will be as follows, viz :—

(1.) Translation from and into Greek, Latin and French.

(2.) Analysis of words, including derivation, synonymes, inflection and dialectic changes.

(3.) Analysis of sentences, with rules of construction, illustrative quotations, and the answering of questions in history, geography and mythology.

(4.) Analysis of metres, including quantity, rhythms, and nomenclature.

(5.) Rules and practice of Greek accentuation.

(6.) Criticism on the style, spirit, and subject-matter of the authors quoted from.

SOCIETY OF ALUMNI.

This Society is composed of graduates from the College, and those upon whom it has conferred honorary or *ad eundem* degrees. Among its objects is the encouragement of Science and Letters, more especially in their connection with Hamilton College. It has the use of an alcove in the College Library, to which donations are solicited of books, pamphlets and papers, whose authors are graduates from Hamilton. It seeks also the promotion of friendly feeling and sympathy among its living members, and the rendering of fit honor to the departed. Its annual meeting is held on the afternoon preceding Commencement. Persons who can supply information appropriate for the Triennial Catalogue or the Obituary Record, are requested to communicate the same to the Necrologist.
